AUCTION NO. 229

MEMPHIS INTERNATIONAL
PUBLIC AUCTION NO.229

FRIDAY & SATURDAY, JUNE 13TH AND 14TH, 2003 • 6:00 PM

SMYTHE
ESTABLISHED 1880

We buy, sell, and auction the very best in Antique Stocks and Bonds, Autographs, Banknotes, Coins, Historic Americana, and Vintage Photography

TERMS OF SALE

1. A 15% buyers charge will be added to the hammer price of each lot purchased.

2. All bids are per lot as numbered in this catalogue.

3. Bids less than 60% of the estimate **will not be accepted.**

4. We reserve the right to withdraw any lot prior to the sale.

5. All successful bidders shall be billed for postage, handling and insurance.

6. We cannot be responsible for the loss of any merchandise shipped outside the United States.

7. All framed items are shipped at the purchaser's risk.

8. SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**

9. A SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.

10. United States coins and currency will not, in conformity with law, be opened at less than face value.

11. No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids below the low estimate will not be reduced. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer. "Cut" bids (bids at less than the regular bidding intervals) will be accepted, but they must be no less than half of the regular interval over the previous bid. Each bidder may make only one "cut" bid per lot, and if they are cut out, they may make no further bids on that lot.

12. In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.

13. All bids must be in whole dollar amounts. Percentage increases will be rounded up to the nearest dollar.

14. Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.

15. No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**

16. Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1 1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. **Credit cards will not be accepted for auction purchases.**

17. Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.

18. If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE in procuring judgement shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.

19. SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.

20. In the event of dispute, the auctioneer's decision is final.

21. New York State & Pennsylvania State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.

22. No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

23. In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

24. The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

25. SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

26. All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

27. All material in this catalogue is unconditionally guaranteed to be genuine. We will not knowingly sell any item that has been "repaired", "restored", "processed", "cleaned", "pressed", or "conserved" in any way without disclosing those facts to the potential buyer.

28. Agents who bid from the floor for clients should examine the lots carefully, and are reminded that no lots may be returned by floor bidders except for non-authenticity. Lots described as "repaired", "restored", "cleaned", "whizzed", "pressed", or "washed" may not be returned for any reason except non-authenticity.

29. Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Third-party graded notes (i.e. C.G.A.) are **sold as is, no returns.** Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it. Lots sold with the proviso 'sold as is; no returns' cannot be returned.

30. In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

31. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

32. The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale; all bid sheets must be signed by the responsible party.**

33. A $100 charge will be applied for any check that fails to clear.

Dedicated to the Memory of Douglas B. Ball

The Memphis International Paper Money Show began over a quarter of a century ago at the Rivermont Hotel, and though I wasn't there myself, I suspect that the first person through the door was Douglas B. Ball. I have never met a man more passionate about paper money. It was his passion that drove Douglas to become one of the most respected figures in this wonderful hobby. He approached paper money from an academic, as well as a commercial viewpoint.

Douglas was always willing to share what he knew. Most of the major collectors and dealers in this field will tell you how grateful they are to him for the information, and the encouragement, he provided, person to person, and through his writing. His research and writing continued virtually until the day he died, in March of this year.

Nothing made Douglas happier than having the opportunity to catalogue a great collection of Confederate, colonial, or obsolete bank notes. Fortunately, he was able to spend some of his final days happily working on the Gene D. Mintz Collection presented in this catalogue.

Douglas was a business colleague, a mentor, and most of all, a friend, who never failed to be there when the going got rough. He will be greatly missed, by myself, by all of his other colleagues at Smythe, and by just about everyone who ever attended a Memphis show, or received a Memphis catalogue.

With the greatest affection and respect, we dedicate this Memphis 2003 auction catalogue to the memory of Douglas B. Ball.

Stephen Goldsmith, Executive Vice-President, R.M. Smythe & Co.

CONDITION TERMINOLOGY FOR CURRENCY

Gem Unc. (Gem Uncirculated) — The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

Choice Unc. (Choice Uncirculated) — A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

Unc. (Uncirculated) — As made or issued, but margins may be poor, the item lightly aged, with border trimming.

Choice AU (Choice Almost Uncirculated) — Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) — There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) — An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) — Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) — The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) — A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.

Good — An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

Fair — Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

Poor — A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

Abt (before a grade) — A shade below the grade it precedes.

Plus or + (following a grade) — A shade better than the grade.

VF-EF (hyphen between grades) — The grade is about halfway between the two grades shown.

VF/Good (slash between two grades) — Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

TERMINOLOGY FOR STOCKS & BONDS

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair — A certificate with extreme handling, fold splitting, stains, small pieces or tears.

Fine — Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) — The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) — Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) — A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems. **Extremely Fine+ (EF+)** — As made, or nearly so.

All certificates are **Very Fine** unless otherwise mentioned.

"*" **After a grade means there are no cancellations.**

Douglas B. Ball
1939 - 2003

Douglas B. Ball was born in Des Moines, Iowa, the younger son of the Honorable George W. Ball and Ruth M. Ball. He received his M.A. in history at Yale University, M.B.A. at Columbia University, and PhD from the University of London. He is the author of Financial Failure and Confederate Defeat, Comprehensive History and Catalog of Confederate History, and Confederate Interim Depositary Receipts & Funding Certificates Issued in The Commonwealth of Virginia 1861-1865. In addition, Ball compiled the ANS slide program and notes “Confederate States of America Currency, 1861-1865”, and wrote more than 50 articles for Banknote Reporter. Ball was awarded the Heath Literary Award for Numismatic Articles and most recently the Krause Publications Numismatic Ambassador Award, in January of 2002. He was an active member of ANA and SPMC, and he often gave talks and programs on behalf of those and other organizations.

At an early age Douglas Ball showed great interest in history – especially in Confederate history, and he spent years researching and collecting Confederate paper money, bonds and related material. His love for Southern numismatic material carried him through all of the states in his search for material, and Ball accumulated a wealth of documents and information which he willingly shared with others. His collection of Confederate material was auctioned in 1987, in conjunction with the Virginia Numismatic Society Convention.

Douglas Ball lived in New York City. He was a Vice President and Director of Research for R.M. Smythe. He catalogued and orchestrated retail sales of Confederate, Obsolete, and Colonial currency, as well as state bonds and early stocks and bonds. Douglas Ball had many friends in the field of numismatics. He had an encyclopedic memory, and knew a great deal about the history of many different periods and cultures. He shared his knowledge freely with collectors and dealers alike.

Ball was an active member of his church, and a fervent supporter of many charitable organizations. He was sympathetic to anyone who asked for help, and he had a hands on approach to many in need, whether it was teaching English or collecting clothes or serving in soup kitchens. He enjoyed playing bridge, going to the opera and reading. Ball traveled extensively, and was well informed on the political and economic situations of many countries. Ball’s great passion in life was the numismatic material he understood so well, and catalogued and described so brilliantly.

He will be greatly missed.

Memphis International Paper Money Auction
Public Sale #229
Friday, June 13, 2003 - 6:00 PM
Session A - Lots 1001 - 2214

Gene Mintz's interest in collecting Confederate currency and related Civil War paper items was fostered by his Southern heritage. Numerous relatives fought in the Civil War, including his grandfather and great grandfather. During his childhood years, Gene listened to his father and other family members relate stories of Confederate currency and bonds stuffed in trunks and plastered on walls in their Southern homes. Inspired by these stories, Gene began to read everything available to him on the Civil War, and especially regarding Confederate finances. He acquired his first Confederate notes as a teenager, and wondered if they had passed through the hands of his ancestors.

During the course of his life Gene collected Confederate notes in any condition, and constantly upgraded his collection to the highest standards he could obtain. Being both a type and a variety collector, Gene began to see the availability of notes to add to his collection become almost nonexistent. After agonizing over the inability to increase his collection, he decided to sell.

Gene has enjoyed exchanging information on the hobby with the many friends he made while assembling his collection. Foremost among these friends was the scholar Douglas Ball. Gene counts himself privileged to have had Douglas contribute to the cataloguing of this auction. Doug's knowledge of Confederate history and finances was unrivalled, and in Gene's own words, "his passing created a great void in the hobby".

This Catalogue is Dedicated to the Memory of Douglas B. Ball

From 1976 through 2003, Douglas B. Ball wrote descriptions for virtually every Confederate item that appeared in R. M. Smythe, or NASCA catalogues. His death was a tremendous loss to Smythe, and to the collecting community as well. In those years, Douglas always gave generously of his time, and his knowledge to anyone who showed the least bit of interest in Confederate currency or bonds. Just before he died in March, the very last thing he said to me from his hospital bed was "Steve, I can't help you any more." It was one of the few times he was wrong.

Faced with the responsibility of having to finish the catalogue for one of the most important Confederate collections ever offered in a public auction, I knew I would need help, and Douglas gave it to me, posthumously. I was able to draw upon information he published over his long career. I was able to remember things he told me. Most importantly, I was able to benefit from the tradition of sharing that Douglas established in the CSA collector and dealer community over the years.

I especially want to thank Amanda Sheheen and Pierre Fricke, who both gave generously of their time and their advice, reviewing the Gene Mintz Collection descriptions. Please note that any errors of omission or commission are mine.

1001 **$1000.** A. T-1. Cr.1. No.61. **EF-AU,** perhaps better. Wonderful color and brightness. ***($40,000-60,000)***

Crisp, bright, and remarkably vivid. Just the slightest hint of a light vertical fold that is only visible upon close inspection of the back. Ample margins on three sides, but the left margin is a bit narrow. A strong glass will reveal a tiny, professionally-sealed pinhole in Calhoun's hair, mentioned merely for accuracy. The boldly-penned endorsement on the back reads "New Orleans June 17th, 1861 A. J. Guirot Ass't Treas CS", and the ink shadow from the flourishes that underline the signature is partially visible on the front. **Very close in overall appearance to serial No.55, the top condition note in the census,** which realized $16,500 in our June 15, 1990 auction. In September of 1990, just three months after No.55 was sold, the present example reportedly traded for $14,000, **equivalent to 85% of the value of the census condition note.**

Signed by **Alexander B. Clitherall** as Register and **Edward Elmore** as Treasurer. Elmore was not a man to be trifled with. When the publisher of a Richmond newspaper, Mr. Daniels, wrote an article claiming that Elmore was a heavy gambler who was embezzling large sums from the Treasury, Elmore challenged him to a duel and shot him. **Anthony J. Guirot,** who endorsed the back, was the **former treasurer of the New Orleans Mint**, and Confederate Assistant Treasurer in the Crescent City.

Of the 607 $1,000 Montgomery notes issued, 99 are known, 9 in Uncirculated condition, and two of those are cancelled. Approximately one third of the survivors are virtually unobtainable, locked away in public and private institutions.This extraordinary Criswell T-1 has changed hands only twice in the last twenty years. It may be decades more before you have another opportunity to bid on a specimen of this exceptional quality.

1002 **$500.** A. T-2. Cr.2. No.380. NBN. **VF-EF,** looks better from the front. Excellent color and brightness. ***($30,000-50,000)***

A choice example, with excellent color and ample margins all around. There are three tiny pinholes. At first glance this example appears to be Uncirculated. None of the folds are visible from the front, and the note is free from any of the cancellations or endorsements that are typically seen in this issue. 607 $500 Montgomery notes were issued. 95 or so are known to exist. The Criswell-2 variety consists of the first 1-576 notes, all signed by **Clitherall** and **Elmore.** When the Confederate Congress moved to the new seat of government in Richmond, Clitherall, a native of Alabama, decided not to go along. Charles T. Jones signed the remaining 30 notes, thus creating the rare Cr.2A variety.

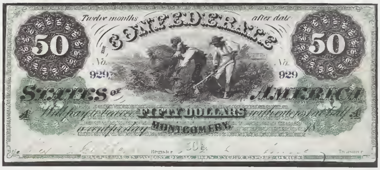
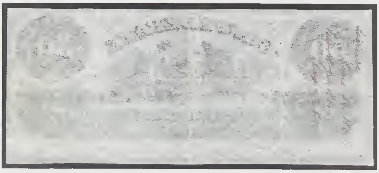
Crisp, bright and vivid. Close margins at left, and at the lower right corner. There is a small pinhole near the center. This lovely example is a perfect match for the two preceding notes, as all three appear to be Uncirculated at first glance. The endorsement on the back reads "Issued June 17 1861 J S. Williams Asst Tres (SIC)". This is the same Williams who endorsed the T-3 (No.1067) in our Memphis 1998 Sale. Williams was a captain at the Office of the Commissary in Lynchburg, Virginia. A total of only 1,606 notes were issued.

Bright and Attractive $50 Montgomery





1004 **$50.** A. T-4. Cr.4. No.929. NBN. **VF.** ***($8,000-12,000)***

Quarterfolded both ways. The top and right margins are trimmed close, but the color is bright, and this lovely note retains much of its original crispness. There are tiny pin holes in the corners, hardly visible, and not distracting. Nicer than No.735 which appeared in our March 2001 sale. That example, described as Abt VF, realized $9,500 plus 10%. The endorsement on the back, in red ink, reads "Issued June 30, 1861 - Thomas K. Jackson Capt CSA". There were two distinct printings.The first run included notes No.1 through No.607, and the second included notes 608 through 1606. Perhaps 130 notes from both printings survive in all conditions.

Comprehensive Catalog and History of Confederate Bonds **$40.00**

By Douglas B. Ball, Ph.D.

1998. 288pp, hard cover. Mint, and signed by the author.

In the book that renders all previous Confederate Bond references obsolete, Ball identifies close to 400 different Confederate Bond varieties including several great rarities unlisted until now. Hundreds of illustrations help even the most inexperienced collector match a bond to its catalogue listing. In addition, the book gives an in-depth history of the bond signers, the printers, the legislation, the Coutts Bank Hoard, and more, such as new, up to date rarity listings for every bond; prices for two different grades; number range information not available in any similar publication; and comprehensive "Ball" numbers for all listen bonds (plus a cross-reference to Criswell numbers). This is far and away the best book on the subject of Confederate Bonds. Order today and reap the benefit of Dr. Ball's many years of dedicated research.

One of the Finest $100 Richmond Notes We Have Ever Offered

1005 **$100.** B. T-5. Cr.5. No.2258. SBN. **Uncirculated,** trimmed close at the bottom. There is an ink stain from an endorsement that shows on the back, only.

($3,000-5,000)

Surely one of the finest examples we have ever had the privilege of offering. The heavy red fiber paper is crackling fresh, the overprints are brilliant green, the signatures are bold. Strictly original. The back endorsement reads: "Issued by me Sept 21/61 - Maj W. J. Anderson - Qr Ms Memphis - Ten". 5,798 were issued in order to make up for the insufficient quantity of Montgomery notes that were part of the Confederacy's initial order from the American Bank Note Company. These Richmond notes were ordered from the Southern Bank Note Company, which was, in reality, the New Orleans branch of American Bank Note.

Financial Failure and Confederate Defeat **$20.00**
By Douglas B. Ball, Ph.D.
1991. 320pp, hard cover.

"Prodigiously researched and forcefully argued, Ball's work is a badly needed modern study of Confederate finance. It clearly supersedes earlier works in making it's powerful case for the impact of financial failures on Confederate Military defeat" – William L. Barney, author of Battleground for the Union. Every serious collector of Confederate fiscal documents should own this book.

Small 10, upper left. "For" is written over "Treas.r", and both Cr.36 and Cr.36A are described that way in Criswell's Comprehensive Catalogue of Confederate States of America Paper Money. This will need further clarification in the next edition.

1029 **$10.** A T-10. Cr.37B No.29460. **VF,** but there is moderate soiling on the back. ***($500-750)***

Small 10. There appears to be just a tiny trace of the last "R" in "For" before "Treas'r " Further research may reveal whether this is simply a Cr.34 with an ink dot, or if this really is a trace of a printed "4". Thick bond paper.

1030 **$10.** A. Cr.37B No.68416. Similar to the previous note. Just a trace of the "For" before "Treas'r". Thin paper **VF.** ***($750-1,100)***

These varieties are difficult to acquire in any grade, and rarely seen this nice.

A split in the die counter has been repaired, just to the right of the "V". There is some mounting residue along the top, near the center. The top and bottom margins have minor edge nibbling. While there are some minor problems, this variety is so rare in high grades that you may not see a better one for decades. An Uncirculated specimen appeared in our September 1987 Richmond Sale where it brought $1,150.

While 49,900 of these notes were issued, the survival rate in anything over VG is very low. The margins are superior for this issue. Judging by the faint shadows barely visible in the corners on the back, this note was tipped into an album in the 1940s or 50s and remained there for decades. There are a few tiny pinholes, and some very light aging, but we haven't seen one this nice for quite a while.

Error: "ies" at end of the top left text line that should end at "all". Quite rare, there being seventeen positions on a sheet of these notes, of which this was position 17. There must have been an error made, and the original text was almost completely erased before the new terms were placed on the plate, leaving the "ies" remnant. **This is the discovery note for this variety.**

1038 **$5 1861 Manouvrier Note. $5.** F. T-12. Cr.46. No.1486. **F-VF,** about a dozen light folds, light aging, good margins, and nice color on the back. ***($4,000-6,000)***

The current example was formerly Lot 1305 in Smythe's Sale 100, November 22, 1991. Jules Manouvrier was a New Orleans lithographer who managed to obtain a contract to print notes for the Confederacy. He lost the contract for two reasons; the notes were too plain, and easily counterfeited, and Manouvrier was accused of carelessness when some of the notes he shipped to Richmond failed to arrive in good order.

A short run of these notes, Nos.1745-1795, are known to exist in high grade. Nos. 1757, 1758, 1760 and 1762 all appeared in R. M. Smythe's September 1987 auction of Dr. Ball's collection. Those four notes have a provenance reaching back to Raphael Thian, an early CSA note dealer, collector and researcher, who supplied the notes as gifts on the occasion of General Sherman's retirement. Perhaps all of the fifty one high grade notes in the 1745-1795 run can be traced back to Thian.

The heart of any diehard Confederate collector will skip a beat when they first see this attractive example. For all intents and purposes it appears to be new. Upon closer inspection it can be seen that two triangular pieces were cut out of the signature blocks when the note was cancelled. A masterful job of restoring these missing portions has been done, turning this example into a wonderful display piece. Formerly Lot 1312 in our November 1991 Sale, where it realized $460.

The two rarest Confederate currency types are the Liberty, Eagle and Shield Type 27, and the Indian Princess Type 35. Only 1,790 sheets were printed, each sheet consisting of four Type 27s on the left side, and four Type 35s on the right side. Survival rates seem to slightly favor the Indian Princess notes in a ratio of about 3 to 2, but the Indian Princess notes have always been the most popular. The T-27s are truly the key to any Confederate type set collection, and they rarely appear on the auction market in any grade.

Financing The American Revolution "Special Price: While they last" **$30.00**
Udo Heilscher
95pp, soft cover

In Financing the American Revolution, Udo Hielscher accomplishes something that has eluded almost every other author who writes about American economic history; somehow finds a way to make the subject interesting, accessible and visible. This handsome 95-page volume, published by the Museum of American Financial History, features 43 premium quality, full color plates of rare original documents, presented as a truly cohesive collection. Both the text and captions are well organized, and they are written in an informative and entertaining style.

Heilscher chronicles America's economic history from just prior to the Revolution, and takes us step-by-step to the birth of the New York Stock Exchange under a buttonwood tree in 1792.

Meticulously researched, beautifully designed, clearly and persuasively written, Financing the American Revolution is that rare book that can be read and enjoyed by academicians, collectors, and the general public as well. Don't miss it!

Rare, and Perhaps Unique Cr.257 "REOEIVABLE" Unlisted Variety

An extraordinary opportunity for the advanced variety collector. **VF,** CC. 2) N. Cr.254Db. No.18086. Similar, but yellow green **Fine,** stains. ***($750-1,250)***

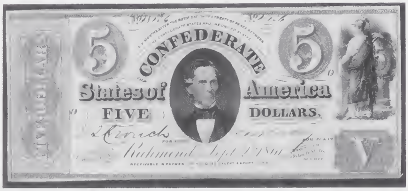
Rarely Seen FIVE Watermark



1173 **Beautiful T-33 With FIVE Watermark. $5.** O. T-33. Cr.257b. No.18136. Crystal clear, perfectly centered ``FIVE" watermark. Yellow green. **EF-AU,** diagonal fold, barely visible from the front. Trimmed close at the bottom. ***($1,000-1,500)***

The basic design used for Type 33 and 34 was borrowed from the Banque of Ameliorations plate of the 1830s, which the Confederate Treasury Department found in at the American Bank Note Company facilities in New Orleans. This is a very attractive note with full border, though trimmed close at the bottom. Rarely offered in this grade. A similar example, from the same number range, realized $1,900 in our June 1998 Memphis auction.

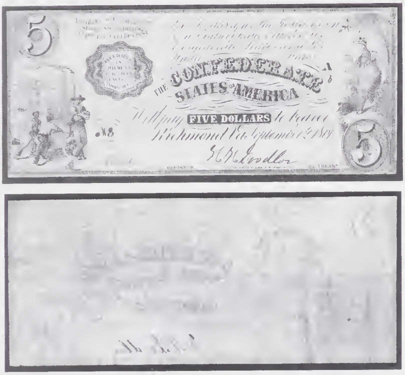
Key Note to the Entire Series



1183 **The Elusive Indian Princess, Type 35. $5.** Ab. T-35. Cr.271. No.3757. **VG-F,** with a barely noticeable tinge of light pink over a small area of the back, mentioned merely for accuracy. ***($9,000-15,000)***

The two rarest Confederate currency types are the Liberty, Eagle and Shield Type 27, and the Indian Princess Type 35. Only 1,790 sheets were printed, each sheet consisting of four Type 27s on the left side, and four Type 35s on the right side. The Indian Princess notes have always been the most popular, and very few have made it to the auction block or on to dealer's price lists in the last five years. 7,160 were issued, and few survive in grades above VG.

This type is almost always found in "**Good**" condition. In June of 1998, Douglas Ball reported that he had seen hundreds of Type 38 notes in his career, but only one that truly graded "**Fine or better**". That note was the condition consensus piece, Lot 1400 in our June 1998 Memphis auction. Graded as "**Fine, plus**", the note brought $2,500 on a $1,000-$2,000 estimate. Since then, two **Very Fine** examples have been reported to this cataloguer, but they have not appeared in a public auction. The current example has the overall appearance of an **Extremely Fine,** and it has better margins than the one in the 1998 auction. To put this into perspective you have to understand that the Criswell plate note was ``**Fine or so**", the best example in the Ball collection was ``**Fine or so**", and **there were none better in the Phillip Chase Collection, the John C. Brown Collection, and the McCoy Collections.**

Controversial and Ever-Popular "Essay" Note

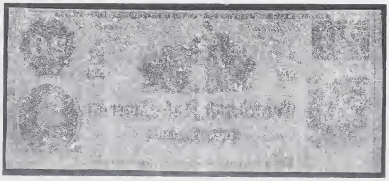
Confederate States America
TWENTY DOLLARS



1227 **Rare 1862 "Essay" Note. $20.** N. T-47. Cr.XX2. No.3404. **AU**, according to the PNG Certificate of Genuiness. Three very light vertical folds can be detected. Nice margins all around. ***($6,000-10,000)***

Controversy has swirled around the two notes known as ``essays'' for over one hundred years. The evidence certainly indicates they were not officially issued. There is no record of them in the Thian Register of the Confederate Debt. No respectable printer would deliver bank notes to a customer with the printer's name spelled wrong (Keatings and Ball, instead of Keatinge and Ball). No other CSA notes were printed on this particular paper.

On the other hand, ``essay'' notes have been found in original hoards of CSA paper, proving that they were contemporay to the Confederacy, and almost every major collector of CSA currency has included the ``essays'' in their holdings.

These notes are rarely offered, but in one recent price list we observed an example described as ``Very Fine'' being offered for $5,995. The PNG Guarantee of Genuineness that is included with this lot indicates that this note, and the $10 ``Essay'' offered in the next lot, have been in the owner's collection since 1986.

An Enigmatic Uncut Proof Sheet of Type 66 Notes on Heavy Bond Paper

1354 **Uncut Progress Proof Sheet of Four $50 1864 Type 66 Notes. $50.** Intaglio printed, with deep embossing visible on the back of the heavy bond paper. **AU,** four horizontal folds, two of which are between the note. ***($10,000-15,000)***

The first words ("Two Years") are missing from the obligation. There are small elements missing from the border. There are no number indicators ("No"), and none of the flourishes are present in the upper half of the notes. The date is absent. The prefix and suffix serial letters are also absent. There are scattered ink splattters and fine scratches. Is this a contemporary progress proof printed on a discarded piece of heavy bond paper, or is this a later pull from a rusty and lightly scratched contemporary plate? In either case, the plate that printed this sheet appears to be an original, contemporary CSA printing plate.

One mystery that needs to be explained is why would an intaglio plate exist when the Type 66 notes were printed using a lithographic process? Keatinge and Ball were skilled engravers. Their method of producing high quality lithographs involved creating an original engraved plate in copper or steel. Transfers were made from the engraved plate in order to create the lighographic plates that did the actual printing. Were the elements that are missing from this engraved plate added later to the lithographic plates? Further research is required.

One thing is perfectly clear There were no such proofs in the Douglas B Ball Collection or any other collection we know of. Probably unique and a real prize for the advanced collector Individual Federal proof notes from the Civil War era usually bring $5,000-$7,500 there are dozens known. CSA proof notes of any kind are excessively rare. and any attempt to estimate the value of this sheet may prove conservative.

Financial Failure and Confederate Defeat **$20.00**
By Douglas B. Ball, Ph.D.
1991. 320pp, hard cover.

“Prodigiously researched and forcefully argued, Ball’s work is a badly needed modern study of Confederate finance. It clearly supersedes earlier works in making it’s powerful case for the impact of financial failures on Confederate Military defeat” – William L. Barney, author of Battleground for the Union. Every serious collector of Confederate fiscal documents should own this book.

Comprehensive Catalog and History of Confederate Bonds **$40.00**
By Douglas B. Ball, Ph.D.
1998. 288pp, hard cover. Mint, and signed by the author.

In the book that renders all previous Confederate Bond references obsolete, Ball identifies close to 400 different Confederate Bond varieties including several great rarities unlisted until now. Hundreds of illustrations help even the most inexperienced collector match a bond to its catalogue listing. In addition, the book gives an in-depth history of the bond signers, the printers, the legislation, the Coutts Bank Hoard, and more, such as new, up to date rarity listings for every bond; prices for two different grades; number range information not available in any similar publication; and comprehensive "Ball" numbers for all listen bonds (plus a cross-reference to Criswell numbers). This is far and away the best book on the subject of Confederate Bonds. Order today and reap the benefit of Dr. Ball's many years of dedicated research.

Signed by Baron Emile Erlanger (Jewish, French and German loan manager), J. Henry Schroder (British Agent), Colin J. McRae (CSA Financial Agent in Europe, Alabama businessman and Confederate Congressman), and John Slidell (former Louisiana Senator, CSA Commissioner to Paris, and later Erlanger's son-in-law). Slidell was involved in the famous November 1861 "Trent Affair" where Slidell and James Mason were forcibly removed from a British ship by Captain Wilkes of the United States Navy and taken to Boston. 3,000 were issued. Many were burned in 1964-65 by the nephew of Mr. Leo Erlanger, who considered them to be trash. Letter From Memminger to Davis Responds to CSA Printer Duncan's Complaints

Treasury Department, C S A

Richmond ... 8

that some of ... have been and ... extremely ill

Respectfully submitted

C G Memminger.

Secty of Treas.

1422 **Memminger, C. G.** Autographed letter, signed. 4to, 1 and 1/5 pages. November 8, 1862. Richmond, Virginia. Written to Jefferson Davis, President of the Confederate States of America. On CSA Treasury Department stationery. Approximately 8" x 10", tipped on to a heavier matte paper, and in excellent condition. ***($2,000-3,000)***

In the letter Memminger responds to Jefferson Davis, who has inquired about a claim for payment made by Blanton Duncan for printing a tint on Confederate Treasury notes. Blanton Duncan formed the first Kentucky regiment, and served as its executive officer despite the fact that he had no military experience. He was at First Manassas, where he caught the attention of General Beauregard. When Duncan returned to Kentucky to help organize the secession convention he was asked by Secretary Memminger to help obtain men and materials for security printing operations.

Later, in 1862, Duncan opened his own printing shop and obtained contracts to print CSA notes. Two of the issues Duncan printed were the 1862 Type 42 $2, and Type 44 $1 notes. Neither had overprints. Duncan was a strict disciplinarian, and finding that his men had too much time on their hands, he decided to add a colored tint to both notes, creating Types 43 and 45. The Treasury approved the tint, but took the view that they thought there were be no added charges for it. Duncan immediately stopped work on the notes and pursued his claim. Eventually, he was reimbursed for the extra printing. The controversy over the tint plates, and over Duncan's aggressive pursuit of printing supplies that had been ear-marked for his competitors, resulted in an unsolicited invitation for Duncan to return to the CSA army.

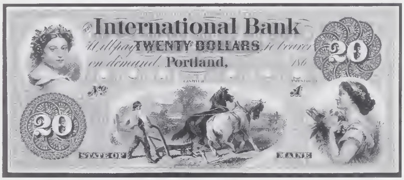
Important NBN Imprint Color Proof



1573 **ME.** *Portland*. International Bank. **$20.** Early 1860's. (ME-465 G12b). **Proof** on card. A stunning red lathe covers this National Banknote Company imprinted proof. The craftmanship that went into NBN products was years ahead of ABN's technology. This note has a vignette, *Turning Around,* at the bottom center. We auctioned this proof last July and a few years before at Strasburg. It is Ex The George Wait Collection, adding to its desirability. **Choice Uncirculated**. ***($1,500-2,500)***

We have never seen a full sheet of contemporary proofs from NBN. We think that proof notes were prepared on an individual basis for the bank and as company samples. For the most part, we have never seen more than half a dozen of a particular NBN proof; this proof falls into that category of rarity.

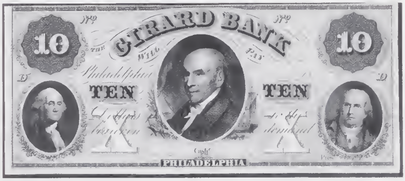
Great Title, Color and Vignette



1656 **PA.** *Philadelphia*. Girard Bank . **$10.** Late 1850's. (PA-435 G38a). Red. **Proof** on India paper. A magnificent light red tinted color proof from Toppan, Carpenter & Co. We know of only four proofs of this that came from a single sheet in the Bowers sale of the Rasmussen proofs over six years ago. At the center is a bold and large portrait of Stephen Girard with his injured eye clearly visible. Washington is at the lower left and Robert Morris is at the right. This is one of the real beauties in this collection and worthy of strong bidding. **Choice Uncirculated**. ***($1,000-1,500)***

At least one of the remaining examples is in a Philadelphia collection, not to be sold soon. We handled at auction another last July 29, 2001, and it deservedly brought a staggering $1,900.00 on the hammer in frenzied bidding. There is also an issued note plated on page 224 of Hoober, location unknown.

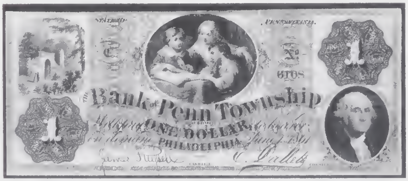
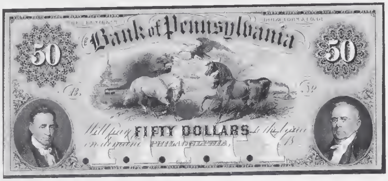
Sharp Bank of Penn Township $1 Note



1660 **PA.** *Philadelphia.* Bank of Penn Township. **$1.** June 1, 1861. (PA-475 G50a). Though not an extreme rarity, this is truly a magnificently designed note. All of this is woven together within a deep green lathe framework and protector. Fully issued, deep color and a beauty. NBN. **VF**, the trim across the top left is less than perfect. ***($400-600)***

Superb Two Color Proof



1661 **PA.** *Philadelphia*. Bank of Pennsylvania. **$50.** Late 1850's. (PA-480 G190d). **Proof** on card. The Bank of Pennsylvania issued several series of notes, but none so beautiful as these two color notes with blue vignette printing on cream tint plates; all executed with precision by Danforth, Wright & Co. This card proof may also have come from the Rassmussen sale six years ago. A vivid jewel of a proof note **Gem Uncirculated**. *($800-1200)*

1662 **PA**. *Philadelphia*. Philadelphia Bank **$5.** Late 1850's. (PA-485 G132a) Light red tint. **Proof** on card. A splendid color proof note from Danforth Bald & Co. This type is also SENC in Haxby. **Choice Uncirculated**. *($300-500)*

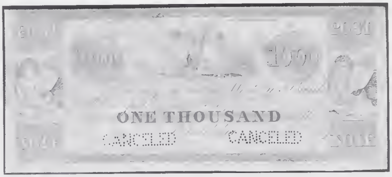
1665 **PA.** *Philadelphia*. Western Bank of Philadelphia. **$500.** Late 1830's. (PA-510 G34b). Green. Well printed with a distinctive color tint. These have always been popular due to color and high denomination. DUBS. **Choice Uncirculated**, perforated "PAID" at the left end. *($600-900)*



1666 **PA.** *Philadelphia*. Western Bank of Philadelphia. **$1000.** Late 1830's. (PA-510 G52a). Light orange. An enigmatic issue from this bank with several series. Most likely these were just essays for the bank or color trials. Nonetheless, striking color tint and a desirable $1000 denomination. DUBS. **Choice Uncirculated**, perforated "cancelled" in both signature areas. *($600-900)*

1667 **PA.** *Pittsburgh*. Allegheny Bank. **$10.** Late 1850's. (PA-10 G26a). Red protector. Unissued. Cherubs attack a boulder and incline plane. Great style and color. DW. **Uncirculated**, and close to choice. *($250-350)*

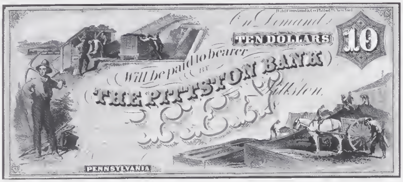
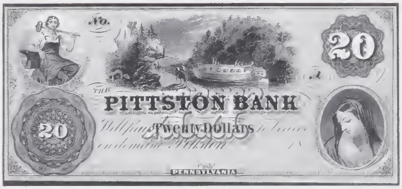
This bank issued its initial notes in the City of Allegheny, before moving to Pittsburgh proper.

1669 **PA.** *Pittsburgh*. Mechanics Bank of Pittsburgh. **$10.** 1850's. (PA-540 G8). Red "X" protector. **Proof** on card. A distinctive proof from Draper, Welsh & Co. with large portrait of Washington at the center. Two different mechanics at repose in each corner. **Choice Uncirculated**. ***($250-450)***



1670 **PA.** *Pittston*. Pittston Bank. **$10.** Late 1850's. (PA-560 G10a). Deep red tint. **Proof** on card. A color card proof with incredible tint flare and vignette/title balance that only Bald, Cousland & Co. could accomplish. Miners work at the upper left and unloaders at the dock lower right. Only three impressions with this tint in the ABN sale. Another outstanding color proof from this collection. **Choice Uncirculated**, a faint spot at the upper left margin. ***($600-900)***

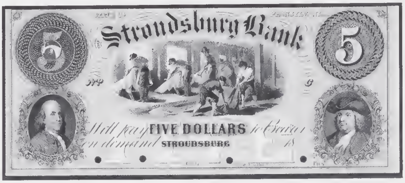
This note was last auctioned (by us) in September, 2000, lot 1222 where it was part of the exceptonal quality and rarity "Collection of a Western Gentleman."



1671 **PA.** *Pittston*. Pittston Bank. **$20.** Late 1850's. (PA-560 G12a). Deep red tint. **Proof** on India paper. A rare canal boat scene we recall seeing on one other bank in the ABN sale. Though there were multiple Pittston Bank notes in the sale, we think this was the sole full color impression of a $20 that came from lot 1732 in the 1990 ABN sale. This example is mounted on light paper stock and not card. BC. **Choice Uncirculated**. ***($600-900)***

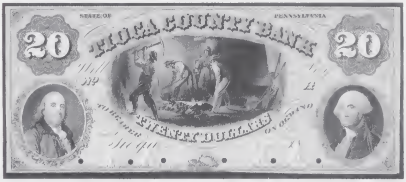
This came from our September, 2000 sale of a "Collection of a Western Gentleman", lot 1223. Before that, the consignor obtained it directly at the 1990 ABN sale.

Incredible Vignette



1672 **PA.** *Stroudsburg*. Stroudsburg Bank. **$5.** Late 1850's. (PA-630 G6a). Light orange. **Proof** on card. This amazing color proof, one of three from the 1990 ABN sale, was a highlight note in the "Collection of a Western Gentleman" sale in September, 2000. Our consignor fought hard for this treasure at the sale. Few color proofs on the market the past few years have equaled or surpassed it. The vignette of leather workers at the center, by Danforth, Wright & Co., may only be on this note. We can't recall it on another. A superb proof to center a great collection around. **Choice Uncirculated**. ***($1,250-1,750)***

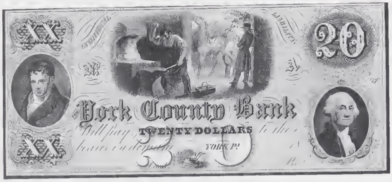
Prior to being lot 1225 in our September, 2000 sale, this was certainly the bottom note ("C" position) of the single sheet in lot 1756 of the 1990 ABN sale. This was not mentioned in the catalogue description of the lot at the time.



1673 **Tioga, Tioga County Bank Proof Pair.** [2] ***($600-900)***

1) *Tioga*. Tioga County Bank **$5.** Late 1850's. (PA-640 G6a). **Proof** on India paper by BC. Full orange tint. Haywagon scene. **Choice Unc.** 2) Same series. **$20.** (G10a). SENC. **Proof** on card by BC. Full orange tint. Great mining scene at the center, we think seen on this note only. There were only a few $20 color proofs from this bank from the ABN sale. This was lot 1226 in our Sale #201, September, 2000. The tint is a bit subdued, but still **Choice Unc.**

Important Color Proof Rarity



1674 **PA.** *York.* York County Bank. **$20.** 1850's. (PA-739 Like G14 SENC). Light orange tint. **Proof** on India paper. Our consignor was a strong purchaser at the September, 2000 sale where this was lot 1228. This color proof is outstanding in several respects. It is a single color impression from lot 1792 in the 1990 ABN sale, mounted on light paper. Its tint color is quite distinctive and is from a rare imprint for full color notes, Draper & Co. Phil. Exchange. That imprint in itself is distinctive, and one we can't recall seeing. To make it even better, the vignette work is tremenedous. **Choice Uncirculated.** ***($900-1,400)***

1675 **Rhode Island Obsolete Notes, High Quality Trio.** [3] ***($450-650)***

[2] ***($600-800)***

Very few face and back matching pairs came from the ABN sales. This was primarily due to them coming from the rarer imprints (such as DW) and the fact that use of security backs was still emerging as a security printing technique due to cost.

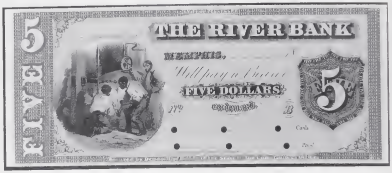
Phenomenal Color, Vignette and Rarity



1704 TN. *Memphis.* River Bank. **$5.** Late 1850's. (TN-120 G2a). **Proof** on card. This is one of the most spectacular color proofs we have ever auctioned and this is the second time we have had the pleasure of seeing this Memphis rarity cross the block in its home town. The deep red frame and ends contrast with a lighter red full tint in the center. At the left is a Danforth, Wright & Co. vignette seen to this date on only this note of a cotton press being attended by two slaves and one white man. A beauty that words do little justice and certain to interest several advanced collectors. DW. **Choice Uncirculated.** ***($1,000-2,000)***

This is one of two examples that were initially on a solitary proof sheet in the 1990 ABN sale, lot 1902. Later, as part of the "Collection of a Western Gentleman", it sold in our 2001 Memphis sale as lot 3282. It was one of that "Western Gentleman's" favorite notes in his distinguished collection that we sold over three sales from September, 2000 to June, 2001.

1) *Northfield.* Northfield Bank. **$1.** 1850's. (VT-160 Like G2). This is unlisted, with no protector or tint. **Proof** on India paper by TCC. Men bargain over cattle, Pierce at the lower left. This imprint not in the ABN sales and from an old collection before going to our consignor. **Choice AU,** due to a handling fold. Everything else about this proof is delightful. 2) *Swanton Falls.* Union Bank. **$1.** 1850. (VT-240 Like G4). Also, unlisted with no protector. **Proof** on India paper by WHHW. The style is quaint as this firm was together for a short period and emphasized quality. Washington upper left, over curved title. **Unc.** A very well done corner repair at the lower right.

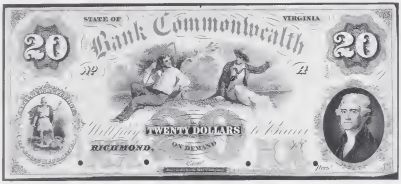
Much scarcer denomination. **About EF,** and with only six small POC, which makes this a superior grade example for the type. 2) *Richmond.* Traders Bank of the City of Richmond. **$10.** 1861. (VA-195 G4a). Green protectors by ABN. Another handsome note type, fully issued, and not easy to find. **Choice EF,** but looks like a new note at first glance.



1721 Richmond, Virginia Proof Notes, Both Rarer. [2] ***($600-900)***

1) *Richmond.* Bank of the Commonwealth. **$20.** Late 1850's. (VA-170 Like G6a, but red and brown). **Proof** on India paper by ABN. The titles and counters are deep red, the protectors at the bottom are light brown. Uncertain if this is toning of the tint or a different color. A few Virginia banks used two color protectors, so this makes more sense. Not many like this in the ABN sale. **AU,** with some handling; and a short pull in a POC. 2) *Richmond.* Farmers Bank of Virginia. **$20.** 1840's. (VA-175 D20E). **Proof** on card by UBSH/DU. During the Gold Rush, efforts were made to circulate paper money. However, the state government was opposed to any banks of issue, preferring a strictly metallic currency. Argenti & Co. planned to issue these notes as circulating Bills of Exchange to be used to make remittances to New York. The law, however, forbade the issue of such notes, and so far as is known, none survived in the company or were ever circulated. The handful of proprietary impressions, one destroyed by movers, are all that remain of this historic firm and its role in early California history.

Highlights from The Chester L. Krause Collection of Obsolete Notes

Chester L. Krause

He is, in his own words, "just plain Chet" – local farm boy and later carpenter turned publisher who put his hometown of Iola, Wisconsin, on the world-publishing map. In 1952, Chet founded Krause Publications by producing a single-page introductory issue of Numismatic News on the dining room table of his parents' home. In the ensuing decades, his modest start grew into the internationally known, multimillion-dollar publishing firm that Krause Publications is today.

Chet has been active in his community over the years as a member of the Iola Board of Trustees for eight years, a member of the Waupaca County Selective Service Board for 14 years, and a member of the First State Bank of Iola Board of Directors for 12 years, along with many civic group and project affiliations. In 1972 he was the driving force behind the founding of the Iola Old Car Show and Swap Meet, which has grown to become the largest old car show in the Midwest. All proceeds from the show benefit local civic groups.

Chet's love of coin collecting let to his foray into publishing, and he remains a fixture in the numismatic hobby. Among his many hobby-related awards is the American Numismatic Association's highest honor, the Farran Zerbe Memorial Award. He is also a member of the ANA's Hall of Fame and in August 1999 he received the ANA Numismatist of the Year Award. In 1995, he received the Meguiar's Award as the Collector Car Hobby's Person of the Year. His collecting passion in recent years expanded to include World War II Army vehicles and equipment of the type used by the anti-aircraft battalion in which Chet served.

His hobby and business interests have been profiled in USA Today, Nation's Business, Entrepreneur, major Wisconsin daily newspapers, and on the syndicated television show Motorweek. In 1990 he was named Wisconsin Small Business Person of the Year. He served as a member of the National Advisory Council of the Marshfield Clinic from 1991 to 1996, after which he was appointed an emeritus member. He has been an active supporter of Rawhide Boys Ranch for troubled youth.

Now retired, Chet maintains an office in the original Krause office building, which he repurchased in 2002.

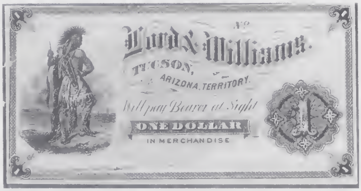
Splendid Arizona Territory Note



1802 **Arizona Territory.** Tucson. Lord & Williams. **$1.** 1870's. This is certianly one of the more desired territorial locations to have in a western or any obsolete note collection. 1816 **Early Imprint Georgia $4 Proof Notes.** 1) Augusta. Bank of Augusta. **$4.** Late 1820's. (GA-30, G-54). **Proof** on card. Archimedes and his lever at the top center. This is usually seen as a common remainder note, with Civil War era change bills printed on the back. This is a rare and splendid proof on card. A. B. &C. Durand. **Uncirculated.** 2) Macon. Bank of Macon, of the State of Georgia. **$4.** 1830's. (GA-195, G-12). **Proof** on India paper. Not a rare, issued note, but a nice proof. It is not easy to find early Georgia proof notes. Another beauty! **Uncirculated,** there is a sealed edge tear, but you will have to hunt for the location. [2] ***($350-650)***

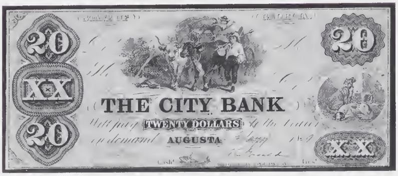
1817 **Augusta, The City Bank Card Proofs.** 1) **$5.** 1850's. (GA-50, G6). **Proof** on card. Large building and no protector. A great design by BC with a woman blowing the lunch horn for her men. There are some problems on the cutting, particularly at the left, otherwise **Uncirculated.** 3) **$20.** 1850's. (GA-50, G-10, unlisted with protector). **Proof** on card. Boys and haywagon. The upper left is trimmed in, otherwise **Uncirculated.** [3] ***($450-650)***

Rare Yellow Tint



1818 Augusta. City Bank. **$20.** 1859. (GA-50, G-10b). Yellow tint. Overall, the beauty and rarity of this note will determine its value. The color is outstanding and we have seen scant few of these in the past decade. The paper is interesting as it seems to be a hybrid of India paper and banknote paper. Is it a falsely filled in proof or an experimental note issued on new paper? The new owner will have an intriguing note to study, or if he decides not to-big deal. This is a beauty and worthy of a strong bid. **Choice Extremely Fine.** ***($600-900)***

1819 **Columbus, Bank of Columbus Color Protector Proofs from the ABN Sale.** 1) **$1.** Sept. 1, 1856. (GA-105, G-10a). Red "1" protector. **Proof** on India paper. THE MARINE BANK OF GEORGIA

1829 **GA.** Savannah. Marine Bank of Georgia. **$10.** Late 1850's. (GA-295, G-8). **Proof** on card. An impressive proof and a rare one. The vignettes are important. On the left is Pulaski and the scene at the right is Sgt. Jasper and Newton Freeing the Captives. The latter is the much, much rarer version by Danforth, Wright & Co. than the one used on South Carolina notes. Only two of these were in the ABN sale in 1990 and we think this is one of them. **Choice Uncirculated.** ***($400-600)***

Jasper and Newton staged a daring rescue of some Revolutionary prisoners on their way to Savannah, where they faced summary trial and executions. Two miles out or so, they sprung into action and freed the captives. It made for a brave story and gave us a few interesting vignettes as well.

1830 **Savannah, Merchants and Planters Bank India Paper Proofs.** 1) **$5.** Late 1850's. (GA-315, G-8a). Red protector. **Proof** on India paper. Full note length vignette. Light green face tint and green printed back.The first of a trio of incredible Idaho Territory scrip. We probably would have to scratch back to some early, predecessor NASCA sales to find an example of these that we handled. This $10, though unissued, has high grade going for it. General Grant is at the left and at the bottom is a vignette titled Ho! for Idaho. The back is green and a mimic for a legal tender note with a quartz mining scene at the center. There is some light edge handling, the cut is a bit off at the lower right, otherwise this is fully **Uncirculated.** This is a real prize for the obsolete note or western collector. ***($2,000-3,000)***

Green face tint and green printed back. A third super territorial piece from a related, but different series. Washington at the left and U.S. Treasury at the bottom center. On the back, which is a mimic of a legal tender note, is the Union Pacific R.R. North Platte. The note was unissued, but it looks like in 1920 it was brought to the National Bank for redemption. 1836 **IL.** Equality. Illinois State Security Bank. **$10.** 1858? (IL-250, G4a). A rare bank with a rare central vignette by ABN. This note used red protector ends as an additional security measure. Some overall aging, but a note that is close to **Fine.** ***($300-600)***

1840 **Indiana Proofs from the 1990 ABN Sale.** 1) Logansport. Logansport Insurance. **$1.** Late 1850's. (WVS-446-$1 A.). **Proof** on India paper. Issued notes on this "bank" come wretched. There were a few proofs in the ABN holdings. This has a hard to catch repair, but the rest is a nice **Uncirculated.** 2) Mishawaka. Bank of Mishawaka. **$5.** Aug 1, 1854. (Unknown Bank to Haxby). **Proof** on India paper. The bank was unheard of by anybody prior to the 1990 sale. They used two different $5 types, printed on the same sheet. 1842 **IA.** Dubuque. Dubuque, Marion & Western Rail Road Company. **$1.** June 15, 1861. (Oakes-51-1). Green protectors. This is a rare rail road note, listed as R-5 in Oakes, we would think this is rarer based on experience. Lithograph by Ed Mendel in Chicago, the imprint at the lower right. A solid note with a small POC, there is some staining at the right end. Despite that, close to **Fine.** ***($500-1,000)***

1843 **KS.** Leavenworth. Scott, Kerr & Co. **$1.** June 1, 1862. (Whitfield-323). This is a rare, private bank with an ABN imprint. Fully issued. **VG-F,** some soiling and the top left is trimmed in slightly. ***($600-900)***

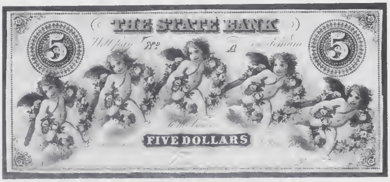
1845 **KS.** Leavenworth City. City Bank. **$2.** Nov 1, 1856. (KS-50, G-4a). Another great Kansas type from Ormsby with two ($2) reapers as a protective device. Unissued. Looks choice on the face, but there is wear from the back. Still nearly **Extremely Fine.** ***($350-650)***



1846 **KS.** Lecompton State Bank. **$5.** Nov 1, 1856. (KS-55, G-8a). This is truly one of Ormsby's finest works, using five (for $5) cherubs in the curve across the note. Orange back with five Washingtons. A beauty! Unissued. **EF-AU,** some minor spots on the back. ***($600-900)***

1847 **LA.** New Orleans. Citizens' Bank of Louisiana. **$10.** Early 1860's. (LA-15, G-26a). The classic "DIX" note by NBN. Orange frame protector and back. What makes this one interesting was the cost-$40! It'll bring much more on the hammer. Unissued. **Choice Uncirculated.** ***($350-450)***

1848 **LA.** Shreveport. Citizen's Bank of Louisiana. **$10.** Late 1850's. (LA-15, G-64a). Color Back **Proof on India paper,** by ABN (no imprint). 1860 **MI.** Duncan City. Thompson Smith. **5¢.** Late 1850's. (Bowen-1). This is a rarity, as most private Michigan scrip. According to Bowen, this was a lumber manufacturing company. All there, but uneven face soiling. For the specialist it won't matter. **VG.** ***($250-500)***

1861 **MI.** Singapore. Bank of Singapore. **$3.** Dec 25, 1837. (MI-420, G-6). One of the great titles in obsolete. For many years these were coveted by Asian collectors as well. The fill in is in question. Most are of the opinion that none were issued by the banks' officers. However, that is academic-since most of the Michigan bankers were dead on crooks. This leaves a handsome, intriguing and very collectible note. **VF-EF,** nice and bright. ***($200-400)***

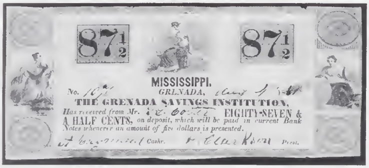
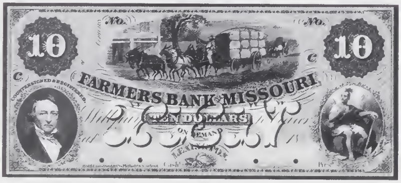
Leggett Plate Note - Ex Cook



1867 **MS.** Grenada. Grenada Savings Institution. **87-1/2 cents.** Late 1830's. (Leggett -7). Although this is not the greatest rarity on Mississippi, it certainly is one of the more intriguing. The fill in (1861) has to be phony, but this is a desirable plate note from the Leggett book (on page 50). It is a "seven bit" note and one of very few we have ever seen. There are a couple of minor spots on the face, but the note is close to **VF.** ***($600-900)***

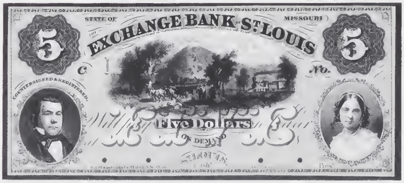
This note came from our 1995 Byron Cook sale - the premier RMS sale for Obsoletes.

Superb Blue Proof



1868 **MO.** Lexington. Farmers Bank of Missouri. **$10.** Late 1850's. (MO-15, Design 10Aa, but blue tint). **Proof** on India paper. This is a full blue tinted proof note on this bank which used several color schemes from the sheets initially sold at the 1990 ABN sale. There were very few solid blue examples and this may be the last one we sold as it came from our 1995 Memphis auction-eight years ago.There is some light handling, but the paper quality and color are outstanding. We will call it **Choice Almost Uncirculated** to be accurate, but it should not affect the bidding. Essential to a fine holding of American proof notes. ***($1,000-2,000)***

1869 **MO.** Lexington. Farmers Bank of Missouri. **$10-$10-$10-$10.** Late 1850's. (MO-15, Design 10A, no tint). **Proof** on India paper. A four note sheet without the tint plate. Cotton wagon and driver at the center by BC. Some very minor internal flaws near the POC, but an above average India paper proof sheet. **Uncirculated.** ***($450-650)***



1870 **MO.** St. Louis. Exchange Bank of St. Louis. **$5.** Late 1850's. (MO-10, Design 5Aa, but unlisted green tint). **Proof** on India paper. Awesome Vignettes and Rarity

1874 **NE.** Brownville. Nemaha Valley Bank. **$1.** 1857 (NE-10, G-4a). Brown lazy "1" protector. This note should excite several collectors. It isn't pictured in Haxby, but it is listed and has a vignette design and balance as nice as we have ever seen on any note. The bank issued two series, one from TCC and this one by WHW. This note is perhaps 2,000 times rarer than the first. Excellent grade, appeal and worthy of the finest collection. **Very Fine.** ***($750-1,500)***

An ABN imprint, but the vignette designs were done by Bald, Cousland & Co. in the late 1850's. All issued. All **AU** to **Unc.,** but the first has slightly poor trim. 6) Waubeek Bank. **$5.** 1857. Two thirds of the note is taken up by a farm scene. Looks a grade higher, but **VF, plus.** [2] ***($250-350)***

1877 **Omaha City, Nebraska, Obsolete Notes with Color Tints.** 1) Brownville Bank and Land Company. **$5.** September 1, 1857. (NE-50, G-4a). Brown tint. Insane Asylum Lottery

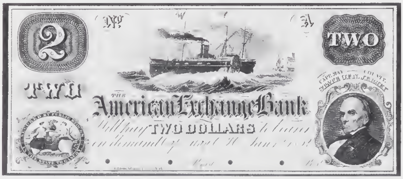
1880 **NV.** Virginia City. Benefit of Insane Asylum State of Nevada. **$5.** August 15, 1872. Light gold face tint and gold back. This is an amazing lottery ticket item that fits perfectly with any important collection of Western notes. We have only seen a few of these in the past fifteen years. At the center is the state seal with the ticket price above and below. Each side is flanked by the detailed text. The prize was to be half of any gift awarded the drawn number. On the back is a mimic of a National Gold Banknote with $2.50/100 also reminding people that the prize was half. In charge of the operation was Wells Fargo & Co., making that an important historical connection as well. A single, light fold and **Almost Uncirculated.** ***($800-1,200)***

1881 **NJ.** Cape May C.H. American Exchange Bank. **$1.** Jan 1, 1852. (NJ-85, G-2 SENC). **Proof** on card. One of the great discoveries on New Jersey in the ABN sale. There were a few card sheets, but they were smartly distributed. Sadly, about half had some sort of foxing on them. This "ace" has a little on the center vignette, but is above average for the bank. BA. **Uncirculated.** ***($250-450)***



1882 **NJ.** Cape May C.H. American Exchange Bank. **$2.** Jan 1, 1852. (NJ-85 ,G-4 SENC). **Proof** on card. Only one per sheet and this has a fine ship vignette. The foxing is quite faint at the upper left corner and most would not mention it. BA. **Choice Uncirculated.** ***($275-475)***

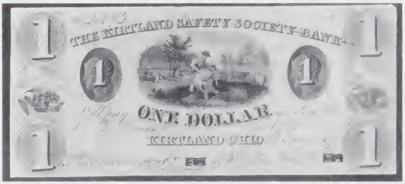
From the 1837 depression era, it is a satirical note based on the shinplasters then in circulation. This was payable in "Merchandise" or "Solvent Bank Notes" at my store, however, we don't think there was a Jobstown. 1896 **OH.** Kirtland. Kirtland Safety Society Bank. **$1.** 9 May 1837. (OH-245, G-2). A sharp Kirtland, boldly signed by Joseph Smith, Jr. and Sidney Rigdon. The paper is uniform and lightly toned, but there is but a single, faint fold. **Choice Almost Uncirculated.** ***($1,750-2,750)***



1897 **OH.** Kirtland. Kirtland Safety Society Anti-Bank-Ing Co. **$1.** 4 Jany 1837. (OH-245, G-2 Variety). A second super Kirtland note, this being from the "Anti-Bank-Ing" series, denoted by the small print stamped near the titles. This note is signed by Frederick G. Williams and Newell K Whitney, both as "P.T." or pro tem. Although not signed by Smith, you can't argue their importance in the financial history of the Mormon Church. Light paper toning, with several folds, but it looks as nice as the $1 note above. A pleasing **Choice Very Fine.** ***($2,250-3,250)***

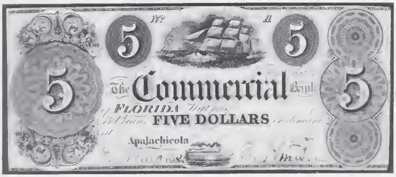
Still, looks **Choice Uncirculated.** 2) Same series. **$20.** Late 1820's. (PA-475, G-28 SENC). **Proof** on India paper. This proof is on India paper, so from a different sheet for sure. Obsolete Notes With Matching Die Proof Vignettes

1930 **CT.** Hartford. Merchants & Manufacturers Bank. **$1.** February 1, 1861. (CT-190, G-2a). Orange protectors. A scarce bank that is usually seen punch canceled like this note. The note is solid **Very Good,** with several punch holes, all clear of the vignettes. [2] ***($200-300)***

The vignette at the left of the note is The Twins by National Banknote Co. Paired with the note is an India paper **Die Proof** vignette of The Twins, well sunk on it's original card and in choice condition. A fine display pair.



1931 **FL.** Apalachicola. Commercial Bank of Florida. **$5.** Late 1830's. (FL-5, G-32). This is a scarce note now with ship vignette at the top right center; all done nicely by RWH. A false fill in, but **Choice EF.** [2] ***($200-300)***

Included with the note is an India paper **Die Proof,** attached to a small card (but well prepared), of the "5" counter at the left within its geometric lathe. It is much more difficult to match a piece of lathe work from a note than a vignette due to obvious (eye blurring) reasons.

1932 **GA.** Savannah. Bank of Commerce. **$100.** Sept 10, 1861. (GA-275, G-16a). Not rare, but a beautiful DW note. There is a small burn hole left of center, concealed within the red back stamp. Overall **Very Fine.** [2] ***($125-175)***

The left end panel vignette is titled End Piece No. 282 and has a long patent title engraved on the far end as well. Paired with the note is an India paper **Die Proof** of the vignette, ***End Piece No. 282,*** well sunk on card by Danforth, Wright & Co. **Choice** condition with very minimal foxing.

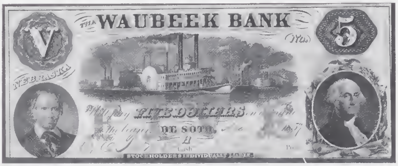
1933 **GA.** Savannah. Merchants & Planters Bank. **$1.** Jan 24, 1857. (GA-315, G-2b). Red protector. Trading scene at the center titled, Southern Market. **F-VF.** [2] ***($100-150)***

Included with the note is a choice India paper **Die Proof,** well sunk on card, by Danforth, Wright & Co. of Southern Market. It is a very sharp impression and the two items go together well.

Please note that a 15% buyer's premium will be added to each lot purchased.

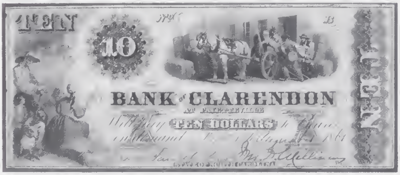
1934 **LA.** Shreveport. Citizens' Bank of Louisiana at Shreveport. **$10.** Early 1860's. (LA-15, G-64a). Green protector and orange back. Elderly man (Ben Franklin?) holds child by Houdon's bust of Washington. This is entitled Example, No. 70 by the American Banknote Company. The note is unissued and **Uncirculated.** [2] ***($80-120)***

Included with the note is an India paper **Die Proof,** well sunk on card, of Example, No. 70 by ABN with imprint below the title. It is gem quality and makes a common note into an uncommon pairing.



1935 **NE.** De Soto. Waubeek Bank. **$5.** May 1, 1857. (NE-30, G-8a). Red protector. Steamboat vignette by RWHE. This vignette is untitled to our knowledge. A fully issued note, but with a characteristic trimming in at the bottom. Otherwise **AU.** [2] ***($150-250)***

Paired with the note is an India paper **Die Proof,** well sunk on a card. There is no title or imprint, but the workmanship is clearly RWHE as used on the note. The quality is **Choice.**



1936 **NC.** Fayetteville. Bank of Clarendon. **$10.** August 1, 1861. (NC-15, G-10a). Orange protectors and panels. This is a very scarce ABN type. At the left is a vignette titled Agriculture & Domestic Industry. A few pinholes, but sharp color and better than **Very Fine.** [2] ***($275-375)***

Along with the note is an India paper **Die Proof** of Agriculture & Domestic Industry. This has been cut down from a larger card to a uniform size, is titled and otherwise is in choice condition.

1937 **NC.** Fayetteville. Bank of Fayetteville. **$2.** 10 June 1861. (NC-20, G-4b). Red protector. Wagon driving scene, not titled. **Fine.** [2] ***($125-175)***

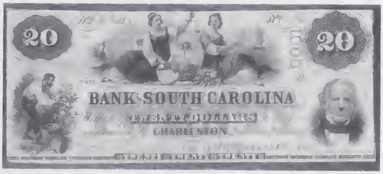
Paired with the note is an India paper **Die Proof,** loosely fixed to a new card of the main horse driving vignette.

1938 **NC.** Wadesborough. Bank of Wadesborough. **$3.** Aug 25, 1861. (NC-80, G-4a). Orange protectors. The bank title is half orange/half black and this is a well vignetted type. White horse runs with bay foal, workman at the lower right and two different portraits of young girls. Nice color, but a small rust hole. In spite of that, close to **VF.** [2] ***($175-275)***

With the note is a choice condition India paper **Die Proof**, well sunk on a small card, by ABN of the young girl used at the upper left of the note. Sadly, no title is given but the die proof does have an ABN imprint line. Another excellent pairing from a well collected state.

1939 **NC.** Yanceyville. Bank of Yanceyville. **$20.** 19 May 1836. (NC-105, G-8). At the upper left are the three Germans: Faust, Guttenberg and Schoeffer as engraved by BA/Rob't Bald for this note. This vignette was used on several northern banks, but this is the only southern one we can think of. Modest soil, but **Fine.** [2] ***($125-175)***

Together with the note is an India paper **Die Proof** of the three Germans (titles in the ribbon as used on note) which is attached to a card. No title or imprint line on the India. Overall, choice condition.

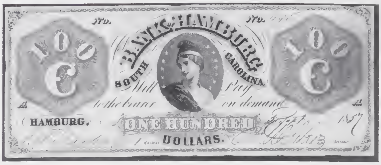


1940 **SC.** Charleston. Bank of South Carolina. **$20.** 23 Feb 1857. (SC-30, G-56a). Red protector. SC arms, supported by Justice and Plenty at the top center. At the bottom left is a slave picking cotton as used on several southern notes. A high grade example of this note. It is trimmed in across the top, but overall is nice **Extremely Fine.** [2] ***($150-250)***

Included with this choice condition note is an India paper **Die Proof**, well sunk on a large card, of the slave vignette used at the lower left. There is no TC imprint or title to this vignette. **Choice** condition.

1941 **SC.** Hamburg. Bank of Hamburg. **$10.** 3 Oct 1837. (SC-86, G-8). Orange protectors. Frontier homecoming, titled Hoosiers Nest. The note is a bit soiled and typcial for the bank. **Very Good.** [2] ***($100-150)***

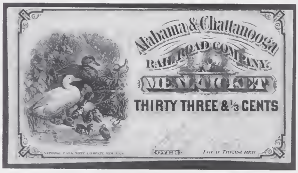
Included is a an India paper **Die Proof**, sunk on a small piece of card with the title at the upper right. Some soil on the face, remounted on a thicker board and research notes on the back.



1942 **SC.** Hamburg. Bank of Hamburg. **$100.** 3 Sept 1857. (SC-86, G-20). Orange counters and protector. This is a tough, high denomination note from this 2nd bank series. The lathe work is tremendous as well. Liberty in a circle of stars at the center. A few pinholes, but a **Very Fine** note. [2] ***($250-350)***

A fascinating India paper **Die Proof** of the central vignette is featured with the note. It is well sunk on the card, without title of vignette, but with the imprint line of Danforth, Wright & Co. What makes this one so interesting is that the printers did not leave enough India paper to catch all the impression and part of the imprint is directly on the card at the bottom. **Choice** condition and a great pair.

Popular 33-1/3 Cent Note



1943 **TN.** Alabama & Chattanooga Rail Road Company. **33-1/3 cents.** 1870's. (Garland-1367). Red protector and green text back. A unique post war style, odd denomination ticket-scrip. These obviously circulated as money and they had the expense of using NBN as their engraver. Issued and **Very Fine,** though toned a bit. [2] ***($150-250)***

Included with the note, on a small card, is an India paper **Die Proof,** well sunk, of Ducks. This was designed by James Smillie for the NBN. A partial card crease, but a sharp looking pair. In this sale, also see the Maramec Iron Works $3 on Missouri and The Lebanon Valley Bank $2 on Pennsylvania using the Ducks vignette by Smillie.

1944 **Proof Sample Vignette Sheet by the American Banknote Company, New York.** An octavo sized sheet, printed on moderate card stock. Includes The Bank of Newberry title in the center, imprint line at the bottom and fourteen vignettes. This sheet has a southern flavor, including foreign motifs (Bank of St. Thomas and Uruguay). Wide margin at the left with spindle holes, therefore out of a book. Light aging, but close to **Choice** Condition.

($200-400)

1945 **AR.** Helena. County of Phillips. **$1.** 1873. (Rothert 277-1). A rare county note with green frame and protector. The vignette at the center is a very rare scene titled On the Levee. NBN. **VG-F,** but the upper left corner is off. Still, a wholesome appearance. ***($200-400)***

We are not aware of another example and have never seen a contemporary piece from this issuer. Great style by RWHE with a superb shipping vignette. The workmanship certainly indicates and important merchant of the period. A desirable proof and perhaps **Unique** as well. **Choice Uncirculated.** ***($1,500-2,500)***

1955 **HI.** Koloa. Ladd & Company. **Ekolu Kala ($3).** 1839. An excessively rare and important Hawaiian merchant scrip, banknote sized and engraved by the Boston Banknote Company.

Busy shipping scene at the top center, ships lower left and eagle at the right. The text is all in Hawaiian. According to Medcalf and Russell's fine reference, the translation is as follows: "the person who wrote the note herein below state they will give to the person who reads this note the sum of three dollars out of their store at Koloa LADD & CO." "Redeemed" is written on the back and has bled thorough to the face and there is an ink spot at the right. Overall, the note is **Fine** to **Very Fine.** However, this point is a academic since this may be the only $3 note in this form. As an American currency rarity it certainly ranks up there for history, beauty and desirability. This would be the centerpiece of any important collection of obsolete currency. ***($17,500-22,500)***

Three issued $5 notes are known, one in the Bishop Museum in Honolulu. In addition, over eight years ago, a proof sheet appeared in a Christie's sale where it brought $15,000 plus buyer's charge. We learned that this sheet traded by private treaty for $25,000. Other than the proof note on the sheet, the only other $3 note we know of is the present example. It was apparently issued before the partners had second thoughts. This is supported by the fact that a black light reveals traces of a signature, and there is a pen cancellation "X" in the block. The word "Redeemed" is also written on the back, which would not be the case if the note had never been issued.

This note pedigrees to Alexander Jones Dallas Wainwright, (1917-2000) the distinguished longtime librarian of the Princeton University Library Rare Book Collections department from 1948 until his retirement in 1982, and who reportedly got this note from a maternal aunt in the 1920's or 1930's. Trying to establish a basis for an estimate on this item is difficult to say the least. The proof sheet brought $15,000 eight years ago and $25,000 more recently. But these numbers are somewhat misleading because issued notes usually bring more than proofs, unless they are total rags. In addition, we must note that the authors Don Medcalf and Ronald Russell, (Hawaiian Money) in the second edition of their work published in 1991 on page 8 state that in the author's opinion a $5 note (at that time the $5 was the only denomination known) was worth $12,500. But that was over ten years ago and much has happened to the paper money market since then. Our estimate extrapolates these various figures.

Don't miss this opportunity to acquire one of the great American Obsolete Note Rarities. As stated, only six notes of this issuer are known; three fives, a sheet for two proofs ($3 and $5) and the present piece. We feel that our estimate of value is well within the range of what this extraordinary item will bring.

2028 **TN.** Memphis. City of Memphis Mayor's Office. **$2.** 1867. (Garland-Unlisted Issuer) Green protector and security back. A wonderful fully issued note from a series not known to Garland when he compiled his book. Very few notes or proofs are known from this series. It is extremely undervalued in our opinion as Tennessee notes have not been as well collected as they should be This note boasts great vignette work and the dual female portrait at the center is one we are not familiar with This note may surprise well over high estimate for a collector astute enough to appreciate its appeal ABN. **VG-F,** there is some surface soiling, but the color is sharp for a note of this grade. *($400-800)*

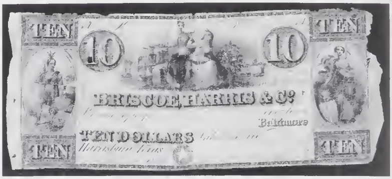
Unknown Series



2072 **TX.** Harrisburg. Briscoe, Harris & Co. **$10.** Late 1830's. (Unlisted in Medlar). At first glance, this note could get by you. However, this is a $10 note on this Texas private issuer and is an unknown series to us which is payable in Baltimore. Same imprint, DT& Co. as used on the Medlar listed notes. This is unissued with enough condition to make it matter. Difficult to estimate, but the specialists will find this appealling. **Fine,** some body holes and a bit rough at the right. ***($500-1,000)***

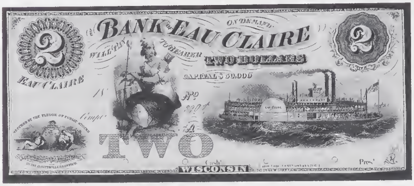
Superb Eau Claire Deuce

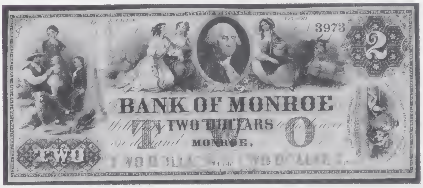


2080 **WI.** Eau Claire. Bank of Eau Claire. **$2.** Late 1850's. (WI-145, G-4a). Red protector. A sensational Wisconsin issue, in remainder form with just a pen serial number. The Krause plate example is an issued note with some chunks off the edges. We have seen but a few notes from the bank, all in dreadful grade. This note is prize worth fighting for. Unissued and **Crisp Uncirculated,** the cut is not perfect at the upper right, with small POC in the signature blocks. ***($3,000-4,500)***

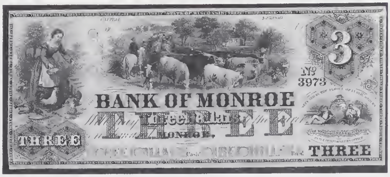
2081 **WI.** Milwaukee. Milwaukee Business University and Shorthand Institute. **$500.** 1880's. (Schingoethe-WI-275-500). A neat issuer and denomination. Printed locally with an ornate harbor scene on the back. A high Rarity 6 or low Rarity 7 note for sure. Some minor spots and hard folds, but a solid **Fine.** ***($200-300)***

2082 **WI.** Milwaukee. Clearing House Check, Payable Wisconsin NB. **$1.** Nov. 6, 1907. A circulating clearing house check, no endorsement necessary per the back. The back also lists the participating banks. **Fine.** ***($100-200)***

Unlisted Monogram Type



2083 **WI.** Monroe. Bank of Monroe. **$2.** Late 1850''s. (WI-570, Like G-4a, but Unlisted). Red protector. Another super rare Wisconsin bank, as the majority are. This is a variety of G-4a with a machine serial number, 3973, at the upper right and the "ABC" monogram. This would make it an unlisted entry in the next Haxby set and important to specialists. This was certainly a bank specimen/remainder with punch cancels in the signature areas; just as you would see on a proof. The eye appeal is exceptional! Faint handling, hard not to call **Choice Uncirculated**. ***($3,500-5,000)***



2084 **WI.** Monroe. Bank of Monroe. **$3.** Late 1850's. (WI-570, Like G-6a, but unlisted). Red protector. Obviously, from the same series and sheet as the last. Machine number and "ABC" monogram, making this a new listing for the next Haxby. A desirable $3 note that is even more desirable than the deuce above. A bank remainder, proper POC cancels in the signature block. The handling is a bit heavier, still **Choice Almost Uncirculated.** ***($4,000-6,000)***

The census of notes on this bank would include the plate notes (unissued remainders on the DW series) in Haxby and Krause (identical) and the proofs sheet (also DW) from the ABN sale in 1990. We are not aware of how many issued notes may be known.

Comprehensive Catalog and History of Confederate Bonds **$40.00**
By Douglas B. Ball, Ph.D.
1998. 288pp, hard cover. Mint, and signed by the author.

In the book that renders all previous Confederate Bond references obsolete, Ball identifies close to 400 different Confederate Bond varieties including several great rarities unlisted until now. Hundreds of illustrations help even the most inexperienced collector match a bond to its catalogue listing. In addition, the book gives an in-depth history of the bond signers, the printers, the legislation, the Coutts Bank Hoard, and more, such as new, up to date rarity listings for every bond; prices for two different grades; number range information not available in any similar publication; and comprehensive “Ball” numbers for all listen bonds (plus a cross-reference to Criswell numbers). This is far and away the best book on the subject of Confederate Bonds. Order today and reap the benefit of Dr. Ball’s many years of dedicated research.

United States Paper Money Records **$125.00**
By Martin Gengerke
1998. 237pp, spiral bound. Mint.

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In United States Paper Money Records Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are close to 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work, also available on CD-ROM, is autographed by the author.

Toward the end of the Rosecrans-Nebeker notes use of a back plate number was eliminated, so Rosecrans-Nebeker notes are commonly seen either with or without a back plate number. By the start of the Tillman-Morgan notes the newer plates (without a back plate number) were in common use, to the extent where ***we've never seen a Tillman-Morgan note with a back plate number before.*** The plate number on this note (2761) is known to have been used on Rosecrans-Nebeker notes printed a half million notes earlier.

This is easily the rarest of the four, and the only one with a large brown seal. Of the 18 recorded by Gengerke only four grade higher than VF. One was reported as "Uncirculated" fifteen years ago, but has not been seen since, one Uncirculated (but inferior to this) realized $22,000 at auction in 1998, and one that may possibly equal this one brought $35,750 at auction in January 2001. ***($25,000-35,000)***

In 1998 a Fine brought $1,430, and in 2000 a F-VF sold for $1,960. This one is at least as nice, and should realize that or more. *($2,000-3,000)*

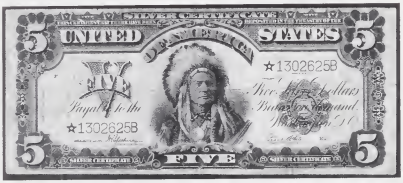
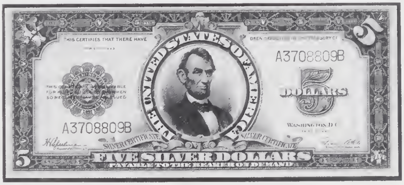
One of Six Known



2327 **$5. Fr.281*.** 1899. **STAR** No.☆1302625B. **VG.** The census now lists six of these - four in VG, one slightly better, and one described by CAA a few years ago as "profoundly ugly... truly filthy." This one has some circulation soiling consistent with the grade, but is evenly worn, and completely undamaged. More importantly, the Gengerke census shows **not one of the six known (other than the ugly one) has ever sold publicly** - a bleak perspective indeed if you're trying to assemble a set. ***($1,250-1,750)***



2328 **$5. Fr.282.** 1923. No.A3708809B. **Choice Uncirculated.** Centered just a trifle high, with very faint teller handling at the right, visible only at the right angle. A Gem in all other respects. ***($1,750-2,250)***

The only other example in private hands is technically a half grade higher than this one, but suffers from paper clip rust marks. That one slipped through an auction a year ago unnoticed, due to a pitiful one-line description with no comment on its' extreme rarity and no photo. Only 840,000 Blue Seal $50s were printed for Atlanta for all signature combinations combined. Exact printage figures for the four varieties will likely never be known, but empirical data from the census suggest that **less than one eighth of the total printage were Burke-Glass notes.** It is probable that very few survived the depression, when many people didn't earn $50 in an entire month and just surviving often made saving an impossible dream. In most areas of U.S. Large Size Currency a note of this rarity would command a healthy six figure price but in the FRN series rarity is (for the moment) far less expensive. ***($3,000-4,000)***

United States Paper Money Records **$125.00**
By Martin Gengerke
2001. 237pp, spiral bound. Mint.

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In United States Paper Money Records Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are close to 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work, also available on CD-ROM, is autographed by the author.

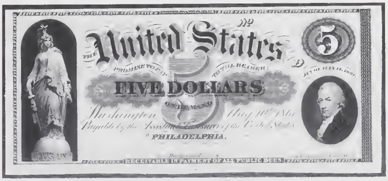
U. S. FEDERAL PROOFS

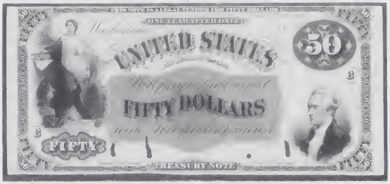
We are pleased to present here an outstanding group of Federal and National Proofs, including everything from art work to vignettes to engraved essays and proofs, to proofs of adopted designs. References are to Gene Hessler's pioneering and indispensable work ***U.S. Essay, Proof and Specimen Notes,*** published by the BNR Press in 1979.

Demand Note Proof



2451 **$5.00 Demand Note, Fr.2.** 1861. On India, mounted lightly at the bottom corners to a card, with punch hole cancellations at the signature blocks. From Plate 2, position D. **Gem Uncirculated.** A flawless beautiful proof, fully bright and vibrant. ***($7,500-12,500)***

Interest Bearing Proof

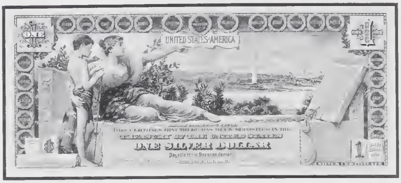


2452 **$50.00 One Year Interest Bearing Note. Act of March 3, 1863**. Face Proof by ABNCo on India Paper, punch cancelled at the signatures blocks. Identical to Hessler IE 18 except plate position C instead of B **Choice EF,** with some minor problems - small paper pulls at the cancellations, a couple of tiny pinholes, and stamp hinge remnants on the back, but the face is most impressive, and looks new. Issued notes are nearly unobtainable - only three are known, and the last available was a Good that brought $23,000 four years ago. This is much more attractive, and can be had for a fraction of the price. ***($5,000-7,500)***

This comes from a Proof sheet of four, three of which (plate positions A, C, and D) were in Stack's January. 2000 sale. The position B note is pictured in Hessler.

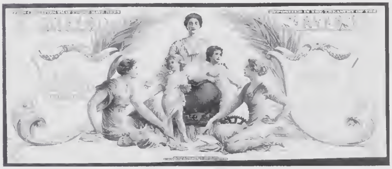
Silver Certificate Proofs

A Superb Selection of "Educational" Proofs and Essays



2453 **$1.00. Fr. 224.** 1896. **Progressive Proof of the face** on India, die sunk on card. The illustrated note for Hessler 224/45, pp.100, where he states that in printing on banknote paper it was found to be too dark, so it was changed by order of G.F.C. Smillie. The wide bottom border of this piece has pencil notations to that effect at the right - "Proof of die engraved by Chas. Schlecht" (as noted in Hessler), and ending "...given to G.F.C. Smillie to alter". The India paper note is a superb **Gem Uncirculated,** while the card has a couple of pieces broken out of the left edge (far from the note). ***($2,500-3,500)***

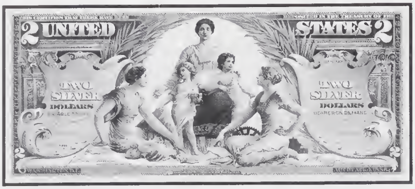
$2.00 Educational Proofs



2454 ***Hessler Fd 66.*** **Progressive face proof for the $2.00 Educational Note.** On India on card. Partially engraved, with pencil blocking for some of the wording. Attractive, although there is a trivial tear in the India paper at the extreme right edge, and glue and mounting signs over much of the back. ***($2,500-3,500)***

From our Glenn Jackson (89th) Sale, June 15, 1990, lot 3237.

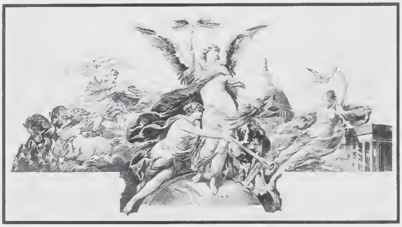
Please note that a 15% buyer's premium will be added to each lot purchased.



2455 **$2.00. Fr.247.** 1896. **India paper Proof of the completed face,** with fully wide borders all around. **Choice Uncirculated,** with a few mounting signs and glue spots in the wide selvedge, plus a tiny (2mm) edge nick. None of the problems (other than two tiny pinholes) affect the note itself. ***($4,000-6,000)***

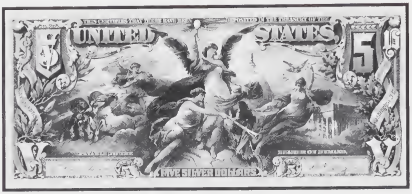
Similar to the one in our Glenn Jackson (89th) Sale, June 15, 1990, lot 3238, but nicer, as that one had some edge splits.

$5.00 Educational Proofs

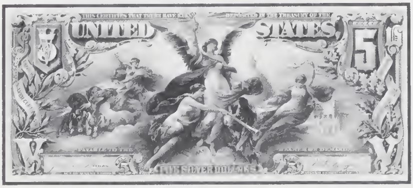


2455A ***Hessler Fd 70.*** **"1st Proof" on India on card of the central vignette** Electricity Presenting Light to the World. **Signed by G.F.C. Smillie and dated November 1894. About Uncirculated.** This is the plate note at the bottom of Hessler pp.112. ***($1,000-1,500)***

From our Glenn Jackson (89th) Sale, June 15, 1990, lot 3240.



2456 **$5.00. Fr.268.** 1896. **India paper progressive Proof of the face,** on India, die sunk on large card. Very similar to the adopted design, with some differences in shading, a larger light bulb in Electricity's hand, no "AMERICA" on the map, etc. "Proof after work by P-/June 18, 95" pencilled at the bottom right of the card. The Proof is a superb **Gem Uncirculated,** while the broad edges of the card show a bit of foxing on the face and some glue on the back. ***($8,000-12,000)***



2457 **$5.00. Fr.268.** 1896. **India paper Proof of the completed face,** with fully wide borders all around, and plate number 4204 at the top. A superb, vivid Proof, with the note portion a **flawless Gem Uncirculated,** and just a touch of toning in the top border and a couple of trivial nicks at the extreme bottom right edge, so far from the note as to be meaningless. Educational Proofs are extremely rare in finished form, particularly with full selvedge. ***($7,500-10,000)***

As ludicrous as it may seem, this is one of those rare instances where a superb and extremely rare Proof may actually be acquired for the same price as a comparatively "common" regularly issued note.

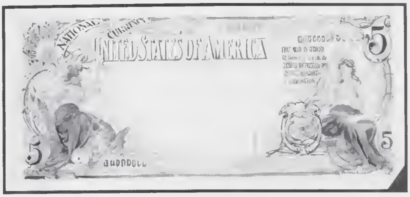
National Bank Note Proofs and Essays

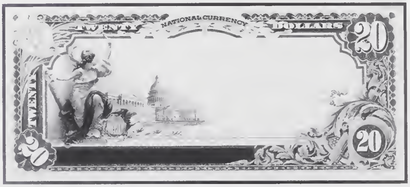
2458 ***Hessler NE 27a*. Wash drawing of a face design for National Bank Notes, by Ostrander Smith.** This is the plate piece illustrated at the top of Hessler pp.169. On two pieces of Bristol board. According to Hessler, the two female figures probably represent Union and Civilization on the left and Navigation on the right. Together the two pieces measure 15.5" x 7.5", including borders. **Unique and of the highest importance.** ***($3,000-5,000)***



2459 **Unfinished Benjamin Harrison vignette, with lettered securities phrase above.** On India on card. A progress proof for the left end of a Third Charter $5 note. Not in Hessler, but belongs with his Fd 122 on pp.170. Card measures 4.4" x 5.3". With it is a Third Charter $5 face proof on the Forth Worth NB, Charter 3131, cut from a Treasury souvenir card. ***($300-500)***

2460 ***Hessler Fd 124*. Progressive proof in green of the lower right corner of a Third Charter $20 back.** On India on card, with "34644" on the back as in Hessler. Card measures 6" x 5". ***($400-600)***

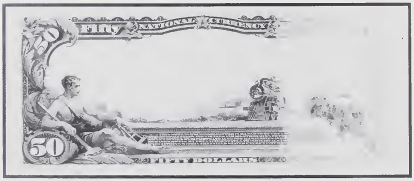
2461 ***Hessler Fd 124*. Progressive proof in black of the back of a Third Charter $20.** This is the plate piece illustrated at the top of Hessler pp.172. On plain paper, with wide margins at the sides and bottom, and the obligation at the bottom cut out, no doubt for rewording or re-engraving. 8.3" x 3.5", "35962" on back. ***($1,000-1,500)***



Lot 2461

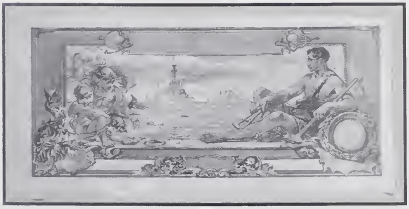
2462 **Proof of the bottom obligation from a Third Charter National.** Similar but not identical to any single denomination. Black on plain paper, 5.1" x 1.7", with with pen notations at bottom. ***($100-200)***

2463 ***Hessler Fd 125*. $50 Green progressive back proof, on India on card.** This is the plate piece illustrated at the bottom of Hessler pp.176. It is actually a bit different than described in Hessler - the left 5.3" of the note is a one-piece India proof, finished, while the right unfinished 2" is printed on the underlying paper. An intriguing and no doubt unique proof. ***($2,000-3,000)***



Lot 2463

2464 ***Hessler NE 30*. Sepia wash drawing of a back design, probably for the Third Charter $50, by Walter Shirlaw.** This is the plate piece illustrated at the bottom of Hessler pp.173. 10.8" x 6.1" (outer board). On brownish paper glued to heavy board. **Unique.** With it is a normal $50 back proof in green, from a convention souvenir card, cut to note size. ***($750-1,500)***



Lot 2464

2465 ***Hessler Fd 125.* $50 Green progressive proof of the right end of the back, on India on card.** Shows vignettes of Navigation and the train, with portions of the border design. ***($500-750)***

From our Glenn Jackson (89th) Sale, June 15, 1990, lot 3298.

2466 **Rejected hand drawn design for the left end of a National Bank Note,** with space for a portrait vignette to be inserted, at right "NATIONAL CURRENCY" lettered above fasces. A pencil drawing on tracing paper, 4.6" x 6.1". **Not in Hessler.** ***($200-300)***

Miscellaneous Vignettes

2467 **Vignette of the Presentation of the Declaration of Independence.** Black, on card, identical to that used on the back of the First Charter $100, except with an ornate border. The front is clean and bright, the blank back shows some glue. With it is an old small photo reproduction, probably of the painting from which this vignette was taken. ***($200-300)***

2468 **Vignette of the Landing of the Pilgrims** by ABNCo. On India on card. Also, a $5 Third Charter Date Back reverse proof from a souvenir card. As New. [2] ***($100-200)***

2469 **Eagle and Flag vignettes (2).** As used on the back of the 1882 $500 Gold Certificates. One small plain vignette on India on card, the other with "UNITED STATES of AMERICA" above, and "DEPARTMENT of STATE," below, on State Department watermarked paper. With it is a $500 Gold Certificate back proof from a souvenir card. All As New. [3] ***($150-200)***

2470 **Miscellaneous Vignettes: 1)** Large eagle on shore rock, ships in background. On India on card, "March 17 - 1900" pencilled; **2)** 3" x 2.3" India paper proof with eleven small "US" corner engravings. Some foxing; **3-4)** 3" x 1.5" oval engraving of Monticello in black, as used on modern $2 Legal Tender Notes, on India on card, plus a 1953A $1 note; **5)** Vignette of Washington, 1.4" x 1.8", black, on India on card. "Legal Tender 1918 - $1 Face" and "G.F.C. Smillie" pencilled at bottom. The vignette as used on a great many Large Size notes. All nice condition except as noted. The Monticello vignette is quite rare according to Hessler. [5] ***($250-350)***

2471 **Vignette of shield, within it and around it are 45 overlapped State Seals.** A convention "spider press" printing, signed at the bottom "No.#34 Michael Bean / Plate Printer / July 23, 1988". The engraved area is about 7.5" square, with approximately 1" borders. Black, on cardboard. ***($100-150)***

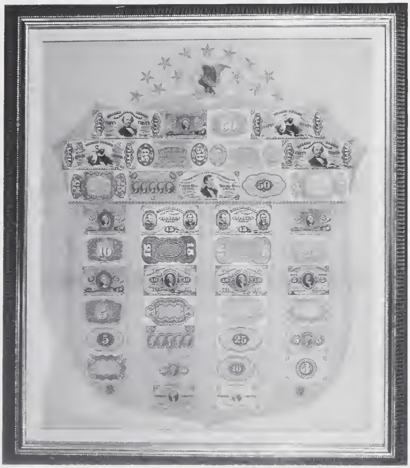
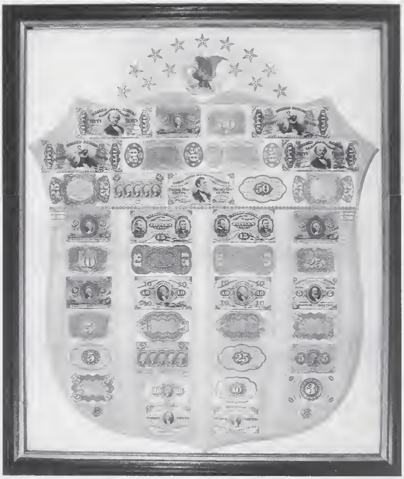
Fractional Vignettes

2547 **Interesting Fessenden Group: Book** Fessenden of Maine, Civil War Senator by Charles A. Jellison. Syracuse University Press, 1962. 294pp., Illus.. New; Memorial Addresses on the Life and Character of William Pitt Fessenden. Addresses given in Congress, published by the Government Printing office in 1870. 88pp., with a large intaglio vignette of Fessenden. Very Fine, with slight internal foxing, but a solid binding (this is an original, not the recent reprint); Large intaglio vignettes of Fessenden and Stanton, 8” x 10.5” from a book published by Johnson, Fry & Co., New York. [4] ***($100-125)***

2548 **Five Vignettes Used on Fractional Currency: Stanton, Dexter, Meredith, Walker and Crawford.** All are on India, on 7” x 9” card, from a Treasury Vignette book, with gilt edges on three sides. All bright with just the faintest toning at the gilding. With it is a Post Card “made from pulp of bank notes redeemed and macerated by the U.S. Treasury, Washington, D.C.” [6] ***($400-500)***

Two Rare Fractional Currency Shields





2549 **Green Fractional Currency Shield.** Of the three major Fractional Currency Shield varieties - Gray, Pink and Green, **the rarest by a wide margin is the Green.** There are possibly over a thousand Gray Shields in existence, probably forty to sixty Pink Shields, but the highest estimate we've seen is perhaps twelve to fifteen Green Shields. Not since Milt Friedberg's Green Shield was auctioned for $12,100 over six years ago has there been one of this quality available. The background cardboard has toned slightly and there is some mild water staining at the bottom, far less than normally seen (virtually all Shields exhibit some water staining, from flooding while in storage at the Treasury). The green background tint is excellent, as are the notes. As on all Green Shields, the four autographed notes are the Colby-Spinner varieties, including the rare 15 Cent Grant and Sherman, which is particularly nice on this shield. The Shield has never been folded, broken or chipped, as have many, and there are none of the unsightly horizontal aging areas that seem to plague them. In a black, fairly modern frame, with gold leaf inset. The Central States sale a few months ago saw prices of $9,315 for a Gray Shield and $14,490 for a Pink Shield that was not as nice (or as rare) as this one. All in all **one of the nicest Green Shields to be offered in many years -** the piece-de-resistance for a truly important Fractional Collection.

($15,000-20,000)

2550 **Gray Fractional Currency Shield.** In a contemporary wood frame with the gold inset and rough-hewn board backing found on shields framed at the time. **An unusually nice condition shield.** Bright, with the water staining at the bottom not only far less than usual, but virtually unnoticeable, and just the smallest bit of well done touch-up at the extreme lower right corner. Never folded or bent, and the board backing has no large gaps that often result in unsightly aging areas across the front. Excellent color on the notes, with practically no fading, even on the second issue 25 Cent back (usually very pale). **All in all a shield that will be a rather handsome addition to any home or office wall,** and worth far more than the usual run-of-the-mill shield. ***($6,000-Up)***

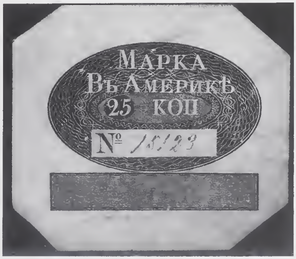
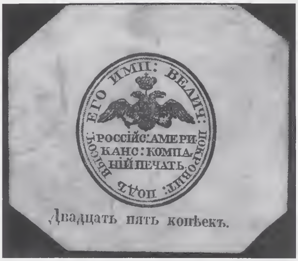
Alaska-Russian America





2561 **25 Kopeks.** No.15123. Rectangular, with the corners clipped. 61 x 55mm. Black on light parchment. Very sharp and bold impression for this series, face and back. **Extremely Fine, or better.** Just a hint of handling, and very light soiling. **Certainly one of the finest we have ever offered.** *($7,500-12,500)*

The Russian claim to what is now Alaska came in 1741, when Vitus Bering discovered the region and his name was given to the strait between Alaska and Russian Siberia. Russian pelt seekers visited the area during the succeeding generation, but it was not until 1784 that the first permanent settlement was made. In 1799, the Czar, by decree, established the Russian-American Company, giving it the sort of powers that were then current with the various East India Companies and Hudson's Bay Company. As such, it was a quasi-sovereign power, with both ruling and trading rights.

By 1803, the Company representative proposed that the firm should pay out at its trading posts (which ultimately reached as far south as California) small notes in 10, 25, 50 kopeks, 1, 5, and 10 roubles, the gold rouble being worth approximately 48 cents in United States money. The justification given for this proposal was that it would eliminate bookkeeping and promote sales. The exportation of coin to Alaska was opposed because the natives would convert the coins into ornaments or weapons. In actual fact, coin was at a premium in Russia, and the Russians wanted to monopolize the trade of the Aleuts and other natives. Company notes, receivable only in the post stores and not redeemable in coin, would force the fur sellers to buy their goods from the Russians. Gold and silver coins, on the other hand, could be spent with American and British furriers, who were trying to infringe upon the Russian company's trade monopoly.

Typically, the Russians took some time to act on the note issuing proposal, but ultimately five issues were forthcoming in 1816, 1822, 1826, 1834, and 1852 for 12,000, 30,000, 30,000, 30,000 and 80,000 roubles respectively. In 1863, when the Russians had depleted the stock of fur bearing mammals and were now anxious to divest themselves of a money losing white elephant, there were 39,625 roubles of these notes reported outstanding, most of which probably belonged to the last and largest emission of 1852.

During a dinner party in Washington, in 1867, Secretary of State Seward, who had wisely foreseen the desireability of getting the Russians out of the western hemisphere, found himself partnering the Russian Minister at a game of whist. The Russian suggested that the United States should purchase Alaska. Seward arranged to meet the minister later that evening, after the party, at the State Department. By dawn, an agreement was reached to buy that immense territory for $7 million (another $200,000 was added later, so legend has it, because the Czar needed that sum to buy a diamond necklace for his mistress). Although Congress did not look upon Seward or this project with approval, the fact that Russia was thought to have sided with the Union during the late Civil War made it difficult for Congress to refuse to go along with this agreement. As a result, the treaty was reluctantly ratified by the Senate.

The Russians redeemed the circulating sealskin notes for Russian Credit Notes. Today, perhaps 120 or so of these Russian-American notes survive, most in the permanent collections of museums. There have been several articles about a unique and probably unissued 25 rouble note. Subsequently, in the Journal of the Russian Numismatic Society, in the Autumn of 1987, Anders Bergland, Tuukka Talvio, and Randolph Zander published a new article claiming the existance of nearly 100 pieces and providing fascinating details on the production of these notes. The earlier notes were apparently made on paper, cardboard or parchment.

Uhl claimed that the notes were made from walrus skins, which were used to protect the otter skins being sent to China and that the skins became discolored from the various return cargoes put inside them. The three authors in 1987 suggest that the notes were made by the Russian authorities out of the three types of materials noted, and nowhere make any mention of actual skins being used. The notes were in fact issued to facilitate the sale of sea otter skins and only later seal skins.

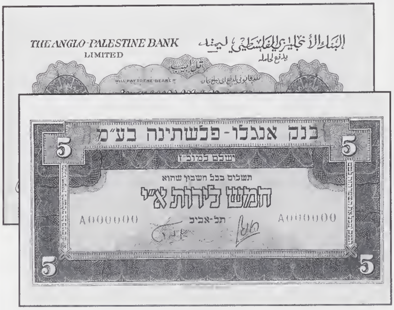
Unique Israeli Discovery Proof!



2728 Anglo-Palestine Bank. 5 Pounds. Un-issued Thomas De La Rue face and back proofs in album. The face and back 15 x 7.5 cm paper trial notes come recess mounted on the inside left and right of two 31 x 21 cm hinged wooded panels covered in leather matte. The proofs appear fully engraved, but the quality of the craftsmanship is such that careful examination reveals they actually comprise engraving, paste-ups and hand-printing, so they are true production pieces. Prior to the discovery of this piece, the conventional wisdom was that the directors of the Anglo-Palestine Bank only visited the American Bank Note Co. in New York for the preparation of Israel's first paper money. Since few areas of numismatics have been as heavily researched or documented as that of the currency and coins of Israel, this "fact" has been discussed and accepted for decades in all standard numismatic references. This discovery piece re-writes that chapter of Israeli numismatics. When the consignor purchased this piece, he learned that the General Manger of the Anglo-Palestine Bank, E. N. Hoofien, presumably visited TDLR in 1948 and requested proposals for the first banknotes of Israel. After this piece was delivered, however, TDLR could not procure the proper export licenses from England, and Mr. Hoofien then had to rush off to ABNC and settle for the arguably less artful designs that were eventually adopted (lot 2738 below). This unique, surviving original trial piece from TDLR is for the historian, museum, or advanced collector who desires to possess an item of truly historical significance. ***($10,000-Up)***

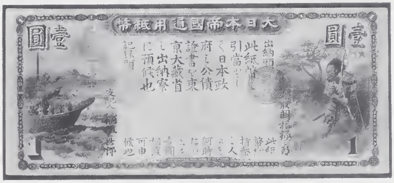
Japan



2766 **Great Imperial Japanese Circulating Note.** 1873 "Paper Currency" Is. **1 Yen.** P-10. Toyohashi Branch, Charter 8. First note in this classic series printed by the Continental Bank Note Company, hence the resemblance of the back of the note with its black vignette in green border to the First Charter US National Bank notes. The front of the note has an imposing warrior with bow and arrows at the right, and the prow of a ship carrying Mongol warriors on the left. The incredible back vignette depicts the defeat of the typhoon-wracked Mongols at Hakata harbor in 1281. This highly desirable rarity has great eye appeal, and its scattered pinholes and a very light owner's stamp on the back are only minor distractions. A much scarcer national bank variety than the Tokyo issue. Higher grade examples command $6000-up. **F-VF.** *($4,000-6,000)*

Tintype Proofs

The following 33 lots represent a consignment of American Bank Note Company tintype (ferrotype) proof plates of various issued and some un-issued banknotes. The original tintype process created a photograph by using a photosensitive collodion emulsion spread on a thin iron sheet with a darkened enameled surface. This "wet-collodion" process was used in the graphics art field well into the mid 20th century since it produced especially fine quality, high-grained negatives. Several of the plates are scribed with proof and design annotations, indicating that they were actively used in the production of the banknotes. No record of previous sales of such tintype banknote proofs has been uncovered to date, so this is an opportunity for the collector to own a new piece of banknote history.

Financing The American Revolution "Special Price: While they last" **$30.00**

Udo Heilscher

95pp, soft cover

In Financing the American Revolution, Udo Hielscher accomplishes something that has eluded almost every other author who writes about American economic history; somehow finds a way to make the subject interesting, accessible and visible. This handsome 95-page volume, published by the Museum of American Financial History, features 43 premium quality, full color plates of rare original documents, presented as a truly cohesive collection. Both the text and captions are well organized, and they are written in an informative and entertaining style.

Heilscher chronicles America's economic history from just prior to the Revolution, and takes us step-by-step to the birth of the New York Stock Exchange under a buttonwood tree in 1792.

Meticulously researched, beautifully designed, clearly and persuasively written, Financing the American Revolution is that rare book that can be read and enjoyed by academicians, collectors, and the general public as well. Don't miss it!

VI CONCITATÆ

3004 **May 10, 1775 Session. $20.** No.4727 **Fine,** split in half; joined with glassine tape.
($750-1,250)

A very popular note because of the multi-colored "marbled edge". In 1782, Franklin used the same marbled-edge paper on debit notes he utilized when he was Ambassador of the United States to France. He apparently brought back some of this paper with him and supplied it to Hall and Sellers. The $20 denomination is the only note in the May 10th, 1775 series with the marbled edge, and the only note that is wide and thin. Virtually a unique type, and always popular.

Udo Heilscher
95pp, soft cover

In Financing the American Revolution, Udo Hielscher accomplishes something that has eluded almost every other author who writes about American economic history; somehow finds a way to make the subject interesting, accessible and visible. This handsome 95-page volume, published by the Museum of American Financial History, features 43 premium quality, full color plates of rare original documents, presented as a truly cohesive collection. Both the text and captions are well organized, and they are written in an informative and entertaining style.

Heilscher chronicles America’s economic history from just prior to the Revolution, and takes us step-by-step to the birth of the New York Stock Exchange under a buttonwood tree in 1792.

Meticulously researched, beautifully designed, clearly and persuasively written, Financing the American Revolution is that rare book that can be read and enjoyed by academicians, collectors, and the general public as well. Don’t miss it!

Issued under King George II. In his early years, Benjamin Franklin was a successful Colonial printer. As he became prosperous, Franklin left the printing shop in charge of others. At the time this note was printed, Franklin was in England representing the Pennsylvania Assembly in an attempt to enforce taxes on proprietary estates. There are some minor edge splits and small stains, but this is a very nice example for this issue which is often found torn entirely in two.

They paid no interest, and could easily have been used as circulating notes. (The Vermont notes lost their status as legal tender notes in June of 1782. Like these Tinmouth Orders, for a short time they were redeemable for tax payments until October 27, 1781, when a committee was appointed to burn them). A total of perhaps 40 Tinmouth Orders are known, some in institutions. They are rarely offered for sale. **EF,** nibbled right edge. ***($1,100-1,800)***

Written to the Honorable William Byrd (who commanded 2nd Virginia against Fort Duquesne under Forbes) from Colonel Arthur Campbell (frontier militia commander) about business matters concerning an "Indian Purchase". The establishment of a lead mine and salt works are discussed, but "The precariousness of the times, induced (Campbell) to do nothing definitive, until the Sense of the Principal Partners be known". Mentions Colonel Harrison (signer of the Declaration) and John Williams (Member of Continental Congress). Small body hole at center where seal was removed, and a few fold splits, small piece out of the bottom, and some minor tape repairs, but otherwise **Very Fine**. [2] ***($250-500)***

At the turn of the century, John and Horace Dodge supplied engines, transmission, and axles to assemblers such as Ransom Eli Olds and Henry Ford. In 1914, John and Horace decided to manufacture their own cars. Their early models were well received, and decades of automotive success followed. By 1925 the Dodge Brothers were dead, and their widows were ready to sell their shares in the business to outsiders. The buyer was Dillon, Read & Company, and the price was $146 million dollars, the largest cash transaction in the history of industrial finance up to that point. The importance of this example cannot be exaggerated.

John De Lorean organized the De Lorean Motor Company in 1975. Manufacturing began in 1977 in Dunmurry, Northern Ireland. The car debuted in 1978. The De Lorean Motor Car was striking in appearance and clearly ahead of its time. The car featured a stainless steel body and gull wing doors. The chassis and independent suspension were designed by Lotus. In 1982, while John De Lorean was searching for financial support, he found himself in the middle of a drug sting operation in Los Angeles, and was arrested on charges of drug trafficking. De Lorean was acquitted, (the verdict was that he was framed) after many years of court sessions. The De Lorean Motor Company went bankrupt, and the inventory was liquidated. It is thought that the company produced about 10,000 automobiles.

This is only the second example we have offered. The first we sold realized $7250 in sale 211.

The dawn of aviation began with the successful Wright Brothers flight at Kitty Hawk, North Carolina, in December 1903. As aviation progressed, companies pioneered the scheduled transport of passengers by air. On January 1, 1914, the Benoist Aircraft Company scheduled passenger service from Tampa to St. Petersburg with a five dollar fare. The Benoist "Air Boat" made this successful flight of 25 miles at 60 MPH over Tampa Bay on January 12, 1914.

The St. Petersburg-Tampa Airboat Line was the world's first scheduled airline route using winged aircraft. A plaque on the entrance to the St. Petersburg International Airport reads: "The Birthplace of Scheduled Air Transportation." **Tom Benoist** (1874-1917) was an early aviation pioneer. By 1909 Benoist had purchased his first airplane, which was a modified Curtiss. He took his first flight in September 1910. By 1911 Benoist had opened a flying school at St. Louis' Kinloch Field. A rare opportunity to obtain a significant piece of commercial aviation history.

Judson was said to have had the first Assay House in San Francisco and was one of the organizers of the San Francisco Chemical Works. In 1867 3 pounds of dynamite were made at his plant and used in a trial blast of boulders. This is considered the first manufacturer and use of dynamite in the US after the invention of dynamite by Alfred Nobel in 1866. The successful trial led to the formation of the Giant Powder Company and the Judson Powder Company. For many years "Giant Powder" was synonymous with dynamite.

The Nicaragua Canal Construction Company was formed in Colorado at the turn of the century expressly for the purpose of surveying and building a canal across the Central American isthmus. The decision to select the Nicaraguan route over the Panamanian or Mexican routes was apparently made by President Theodore Roosevelt, who had been in office only a few weeks.

Nicaragua looked like a good bet because the engineering paths to lakes Managua and Nicaragua along the San Juan River seemed straightforward, as did the sixteen mile route down the mountain to the Pacific Coast The alternative offered by the New French Panama Canal Company, which demanded $109 million for its interests, was generally viewed as being too high a price for what the United States would be getting in exchange

In 1901-2, however, a series of events transpired which resulted in the ultimate construction of the Panama Canal. Nicaragua unwittingly put out an issue of postage stamps showing smoking volcanoes, some of which were in the vicinity of the proposed canal route France, anxious to salvage something from the ruins of their hopes, lost no time in exposing the risks posed by the volcanoes, and cut their bid to $40 million.

President Roosevelt wanted a canal to be finished as soon as possible, and since the Nicaraguan route would take more time than the Panamanian route, the Panamanian route was finally decided upon The Nicaragua Canal Construction Company was wound up and apparently most of its bonds were left unpaid. Prior to this offering we have handled only two other pieces from this company, a bond, and an unissued stock.

Signed by **Charles Beales** as Empresario. Minor junction hole, **VF**. ***($4,000-6,000)***

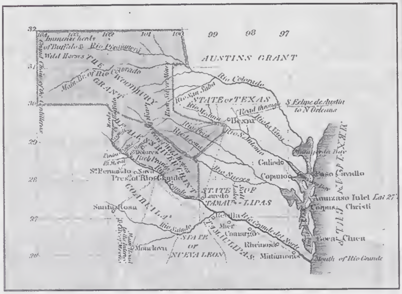
John Charles Beales (1804-1878) was an important speculator in Texas lands. In 1826, he accepted the appointment as company surgeon with the Tlalpujahua Mining Association, a British-backed venture in the Mexican state of Michoac. After that company halted its operations in October 1828, Beales entered private practice in Mexico City. By 1833 he had given up the practice of medicine to devote his time to promoting the development of several empresario contracts he acquired in the region north of the Rio Grande.

On August 3, 1830, Beales married Maria Dolores Soto y Saldana, the widow of Richard Exeter. She had inherited interests in two empresario contracts of 1826 and 1828 encompassing some 48 million acres in eastern New Mexico, the Texas and Oklahoma panhandles, and southeastern Colorado. Within weeks of his marriage Beales took over the management of these contracts for his wife and stepdaughter. In New York on April 27, 1831, he transferred their interests to the Arkansas and Texas Land Company. After this, Beales entered the empresario sweepstakes on a grand scale and for his own account.

In 1832 he persuaded officials of the States of Coahuila and Texas to grant him and three different sets of partners three empresario contracts for an estimated 35 million acres of land north of the Rio Grande. Armed with these authorizations, Beales approached New York speculators. Between April 1833 and January 1835 he was intimately involved in the machinations of the directors of three land companies to which he sold his interests in the lands over which he had acquired control in 1832.

To the New Arkansas and Texas Land Company, established in 1833, he ceded one-half of his interest in the Beales-Royuela grant; to the Rio Grande and Texas Land Company he deeded a large part of the Beales-Grant contract and the nine eleven-league purchases; and to the Colorado and Red River Land Company he transferred control over approximately one-half of the land in the Mexican Company contract lying between the Colorado and Guadalupe rivers. In addition he concluded agreements with a number of individuals, including John Woodward, to whom he passed title to some 4 million acres in different grants.

During the same period Beales spent much time and money recruiting colonists for a colonization project located between the Rio Grande and Nueces. In the end he was able to persuade fewer than 100 persons to settle at Dolores. Beales's attempt to plant a colony in that dry region came to an end when the colonists abandoned the site after the outbreak of the Texas Revolution.



From 1836 until his death Beales sporadically fought in the courts and the legislative halls of the United States and Texas to validate his claims to lands in Texas and adjoining states. For the most part, neither judges nor legislators looked favorably on his petitions or his suits. His heirs were able to salvage only a fraction of the millions of acres to which he once had laid claim.

After his death their titles to the eleven-league purchases in Southwest Texas were upheld by the courts. Beales's dreams of gaining great wealth from his land grants were not fulfilled. In the absence of his journals and financial records, it is impossible to estimate how much he received from the transfer of his interests to the land companies. The total must have been considerable, if, as reported, the Rio Grande and Texas Land Company paid him as much as $100,000 for a portion of his interests in several grants. During this four year period Beales had control over a portion of land equivalent to one-third of the State of Texas.

FIFTY THOUSAND DOLLARS

3281 **United States Steel Corporation** (NJ) 1901. #537. **$50,000.** Registered Fifty Year 5% Gold Bond, Series D. Orange. Rail yard with smelter in distance. Issued to and signed on the reverse attached transfer slip by **Andrew Carnegie**. ABN. A 4 1/2" tear on the attached transfer repaired with tape, else **VF+**. ***($10,000-15,000)***

In the final months of 1900, two of the most powerful and influential forces in the history of American capitalism were poised to take each other on in an economic battle of monumental proportions. J. Pierpont Morgan was busily engaged in systematically consolidating raw material suppliers, basic steel producers and transportation facilities essential to the steel industry. He already controlled National Tube Company, and American Bridge, two entities composed of 39 different companies worth over $140 million.

Pierpont Morgan had one major purpose in mind: to undermine Carnegie by reducing Pierpont's dependence on Carnegie Steel. Andrew Carnegie, in a letter to Charles Schwab, the young president of Carnegie Steel, found this situation to be "grave and interesting." He told Schwab that "A struggle [with Morgan] is inevitable and it is a question of the survival of the fittest." Carnegie struck back by ordering a $12 million tube factory at Conneaut Harbor, Ohio. The new facility would be able to produce tubes for $10 less per ton than Morgan's National Tube could produce. The battle lines were clearly drawn.

Just a few short months later the war came to a surprising end. While no one knows who was exactly the first to conceive of the idea of asking Carnegie to sell Carnegie Steel, its origin can be traced to a fancy dinner held in honor of Chalres Schwab. On the night of December 12, 1900, Schwab attended a dinner given in his honor at the University Club on Fifth Avenue and 54th Street. A list of the attendees included Jacob Schiff, E.H. Harriman, H.H. Rogers, and J. Pierpont Morgan. Whether by accident of by design, Morgan was seated next to Schwab, where he could hear every word of Schwab's impassioned speech on the future of the steel industry. Morgan was duly impressed, and he arranged a future meeting with Schwab in early January of 1901.

At that meeting, without the knowledge of Andrew Carnegie, Charles Schwab and J. Pierpont Morgan discussed the possible acquisition of Carnegie Steel, and the formation of United States Steel. Morgan empowered Schwab to see if Carnegie could be induced into naming a price for Carnegie Steel. After the meeting Schwab gave a great deal of thought to how he would broach the subject to Carnegie. Schwab began by calling on Carnegie's wife, Louisa. He found her quite receptive to the idea of a buy out. The Carnegie's were busy moving into a new home, and Louisa thought it would be a good time for Andrew to begin a new phase of his life. She saw the perfect opportunity for Carnegie to realize his ambition of devoting time to philanthropic activities.

Louisa suggested that Schwab meet Carnegie for a game of golf. Whether or not Louisa suggested that Schwab should let Carnegie win is not clear, but Carnegie beat Schwab by a considerable margin, and Andrew was in a very good mood as he listened to Schwab's proposal over lunch. It was the biggest deal in the history of U.S. capitalism, yet Carnegie came to a firm decision overnight. He asked for $160 million in U.S. Steel bonds in exchange for $160 million in Carnegie Steel bonds. He asked for $160 million in U.S. Steel stock, each $1,000 in Carnegie stock to be exchanged for $1,500 in U.S. Steel stock and he asked for an additional $80 million for estimated profits for the past and coming year. The total came to $480,000,000.

There was only one other stipulation - Carnegie wanted his own personal holding to be in 5% First Mortgage Gold Bonds. True to his usual practice, he did not want to own stock in a company that wasn't under his direct control. On March 2, 1901, a prospectus describing the capitalization of United States Steel at $1.1 billion was filed. Within two weeks, $300 million worth of United States Steel bonds, issued to Andrew Carnegie, his sister-in-law Lucy Carnegie, and George Lauder, were delivered to the Hoboken Trust Company in Hoboken, New Jersey.

Andrew Carnegie

Joseph Wall in Andrew Carnegie, 1971, University Press, states that "Carnegie never wanted to see or touch one of these bonds that represented the fruition of his business career. It was as if he feared that if he looked upon them they might vanish." He let the bonds lie in the vault until he was ready to dispose of them. He then filled out powers of attorney, and he had the power of attorney witnessed by his business secretary, Robert A. Franks.

This explains why no United States Steel bonds issued to Carnegie and signed directly on the bond have ever been found. An opportunity to obtain a premier example of one of the most desirable associations in American financial history - Andrew Carnegie and U.S. Steel. Worthy of a premium bid, it will become the centerpiece of any great collection of American stocks and bonds.

Zion's Co-Operative Mercantile Institution, also known as ZCMI, dates back to October 16, 1867. The organization was established at Brigham Young's demand, which conformed with long standing Church policy aimed at making Mormons economically independent of generally hostile Gentile (non-Mormon) inhabitants

There had been a number of co-operative stores before, but this was certainly the largest. Its charter provided for capital of $3 million dollars divided into shares of $100 each Sales were slow, and by 1870 there were only 1990 shares sold among 600 shareholders. Alarmingly four people owned no less than 1772 of the shares leaving 218 shares to be distributed among the nearly 600 others. Since the whole purpose of establishing the co-operative was to sell goods uniformly throughout Utah at the lowest cash prices, free of Gentile competition it was apparent that the firm was not achieving its goal. Even so, 80 or so other co-operatives were set up in towns outside Salt Lake City.

To get around this problem, all merchants, Mormon or otherwise, were invited to subscribe their inventories in lieu of cash for stock. Some $450,000 was raised in this manner despite Gentile objections. Branches were opened in four other cities, and to stretch capital, about $20,000 of co-operative currency was put out. When United States money became more available (and to avoid a clash with the Federal laws prohibiting private scrip) the co-operative currency was gradually withdrawn.

Brigham Young (1801-1877) was an important Mormon leader. In 1830 he saw the Book of Mormon and was subsequently converted by a brother of the prophet Joseph Smith. In 1835 he became one of the "twelve apostles" of the Mormon church. After the murder of Joseph Smith he led his people to Utah, where they founded Salt Lake City. As president of the Church he was made Territorial Governor. Although he was deposed by the U.S. Government for adhering to polygamy, he retained control over the people who, under his guidance, became a self-contained prosperous community.

Under the title is a cross section of a river and forest with ``GOLD GRAVELS AND GOLD SANDS'' indicated. At right, a cart full of gold bearing ore is lifted up a vertical mine shaft. Across the bottom are a series of underground vignettes of miners at work. The top and bottom borders have large gold nuggets, and there are tubes full of gold nuggets in the side borders. The large format and spectacular vignettes are just wonderful. Scarce, and highly desirable. **VF+.** ***($750-1,250)***

Wonderful graphics and an important piece of Western mining history. Britton & Rey, San Francisco. **VF+.*** ***($1,750-2,250)***

By 1864 the owners of the fabulous Comstock Lode silver mines were at an impasse. The Ophir, the Gould and the Curry had yielded riches almost beyond belief, but the antiquated mining methods employed all but killed the golden goose. The shafts and tunnels were now deep in the heart of the mountain where the owners expected to find even greater treasures. Digging came to a halt when rising water levels overwhelmed the pumps, which simply could not push water back up to the surface. At this point Adolph Sutro came to the rescue.

Adolph Sutro (1830-1898) was a Prussian Jew who came to America in 1850. Lured by the California Gold Rush, Sutro engaged in mercantile pursuits in the Stockton area. In 1860 he went to Nevada and set up a quartz-reducing mill. He conceived of the idea of driving a three-mile-long tunnel into the base of the mountain to drain and ventilate the mines from below. At first the idea was met with a great deal of skepticism, and local support was not forthcoming. Sutro turned to Europe, where mining methods were more advanced and financial backers more understanding. He secured enough funds to begin the project. In 1872, when this certificate was issued, the tunnel was still under construction. Six more years of Herculean labor was necessary to bring the project to completion. Sutro sold his interest, invested it in San Francisco real estate, and devoted the rest of his life to politics and philanthropy.

John D. Rockefeller Prest.

3371 **Standard Oil** (OH) 1875. #215. **50 shs.** Capitol Building. Liberty with flag and sword ("The Standard Bearer"). The original Standard Oil founded by **John D. Rockefeller** and signed by him as president. Also Signed by **Henry Morrison Flagler** as secretary. Lightly cancelled in red pen through the vignette and the officers' signatures, hardly distracting. An extremely important piece of American financial history representing the early days of one of America's most significant industries. **VF+.**

($6,000-9,000)

When it was first incorporated in 1870, shares in the original Standard Oil were very tightly held. There were only five shareholders at its inception, and ten years later there were only forty-one. Standard Oil was the world's largest oil refiners, controlling 90% of the U.S. Oil business at that time.

John D. Rockefeller (1839-1937) was the dominant figure in the oil industry until his retirement in 1911. He started his business career as a bookkeeper and by age 19 was a partner in a produce business. He began operating a small refinery with his partners, and he quickly became alerted to the growing investment possibilities in what was then a fairly new industry. In 1870, he organized the Standard Oil Company of Ohio and proceeded to achieve control over 90% of the oil refineries in the country. Rockefeller had little interest in discovering oil; he left that to the wildcatters and other speculators. He concentrated on the transportation, distribution and sale of petroleum products, building a fortune estimated at over a billion dollars.

Henry Morrison Flagler (1830-1913) with J.D. Rockefeller organized the Florida East Coast Railway (1886) and built great hotel resorts in St. Augustine and Miami (1892-1896). This certificate is issued to and signed by **W.H. Macy** and it is also signed on the stub by **Josiah Macy.** The Macy family were principal owners of the Long Island Oil Company which they sold to Standard Oil in 1872. This largest and oldest New York oil refinery would become an important component of the growth of Standard Oil.

($4,000-6,000)

In an effort to bypass certain governmental pressures concerning the alleged monopolistic powers of the Standard Oil Company, Standard Oil Trust was conceived and controlled by nine trustees. As general statutes at the time limited ownership in other firms in other states, Rockefeller and Flagler devised a plan to take care of these legalities. Acquisitions and ventures were channeled through trustees, whose affiliation and loyalty to Rockefeller and Standard Oil were not readily obvious. This new arrangement enabled Rockefeller to form alliances and set up new concerns in other states while retaining complete control of all the various interests. It brought new meaning to the word "Trust", and made Rockefeller and Flagler the most powerful individuals in the industry and the richest men in the world.

William Rockefeller (1841-1922) was an industrialist, financier and the brother of John D. Rockefeller. While brother John's supreme talent was for organization, William was an able salesman and commercial diplomat who later proved to be a financier and promoter of extraordinary ability. Unlike John, who disliked speculation of all sorts, William joined Henry H. Rogers and James Stillman of the National City Bank in what became known as the "Standard Oil Gang". They carried on numerous adventures and audacious promotions on Wall Street.

3373 **Standard Oil Trust** (1898) #1530. **100 shs.** Brown. Capitol building. Signed by **Henry Rogers** as attorney and **Jno. Archbold** as secretary. Signatures are lightly machine cancelled. IBN. **VF+.**

($1,500-2,500)

John D. Archbold (1848-1916) went to the oil regions of Pennsylvania in 1864, and became involved with various petroleum enterprises. He first became known to John D. Rockefeller in 1872, as one of the only refiners who refused to join the ill-fated South Improvement Company, an attempt to fix railroad freight rates. Three years later, Archbold became a director and vice president of Standard Oil, and later became president of Standard Oil of New Jersey, a position he held until 1911. Archbold's signature on Standard oil certificates is rarely encountered.

(Castenholz 1991 $225) (Cox 1995 $550) The Atlantic & Pacific Railroad was a consolidation of the South Pacific and the Atlantic and Pacific Railroads. Oliver Ames (1807-1877) was an American manufacturer and railroad executive. With his brother, **Oakes Ames,** Oliver succeeded his father in a shovel manufacturing business. Oliver became actively involved in the railroad and shipping industries as well. He was the president of the Union Pacific from 1866 to 1871, while his brother Oakes attempted to keep the Credit Moblier scandal from turning into a disaster. **Uriel Crocker** (1797-1887) was a Boston based publisher and printer. Its bonds were guaranteed by the state to the tune of $17,000 per mile and were endorsed by Governor Rufus Bullock on the back. This bond guarantee was later declared invalid. The railroad disappeared, and the guarantee was worthless, leaving only these bonds as their memorial. Only 700 were issued.

3391

Erie Railway 1868. #96043. **22 shs.** Ships, trains on piers, city beyond. Train, lower left. Signed by **Jay Gould** as president. Minor fold splits, **VF**.*
($7,500-12,500)

The Erie Railway and Jay Gould are two of the most compelling names in the annals of financial history. No other railroad achieved more notoriety than the Erie, the "Scarlet Woman of Wall Street." Jay Gould's unexcelled audacity aroused the wrath of his contemporary Robber Barons, and, on more than one occasion, had the general public howling for his life.

Originally chartered in 1832 as the New York & Erie Railroad, the Erie, as it came to be known, was to be constructed as a route to parallel the Erie Canal. Its beginnings were promising, but by 1867 the road was in a deplorable state. The Erie attracted the attention of three diverse interests: **Commodore Vanderbilt**, who wanted to destroy the Erie to keep it from competing with his own lines, John S. Eldridge, who wished to merge the Erie with the Boston, Hartford & Erie; and **Drew, Fisk** and **Gould,** who planned to milk the line for all it was worth.

In 1867, Jay Gould was a relatively unknown stockbroker, the least conspicuous player in the group, but his name would soon be on the lips of everyone connected with Wall Street. Eldridge and Vanderbilt successfully schemed to unseat Daniel Drew as president of the Erie, then naively allowed Drew and Gould to stay on as board members. Drew, Fisk and Gould secretly conspired to pillage the Erie and short the stock. **Commodore Vanderbilt,** in an attempt to corner the Erie, invested over $10,000,000 in order to force the stock upward. When the Commodore got wind of the conspirator's plans to simply issue unlimited amounts of new stock, he got a friendly judge to issue an injunction against Drew, Fisk and Gould. The conspirators moved their operation to Jersey City, out of the judge's jurisdiction, and continued issuing stock at an unprecedented rate. Gould then appeared in Albany with a bag full of cash, and coincidentally, the State Legislature passed a bill legalizing the enjoined Erie stock issue. The bill also contained a clause prohibiting Vanderbilt from voting his shares in the Erie. The result was a stalemate, forcing all parties to agree to a settlement that kept Vanderbilt's investment relatively intact while putting Gould in control of the Erie. In some respects it was a hollow victory. The railroad was in a deplorable state. In a letter to the president the superintendent stated "...The iron rails have broken, laminated and worn out beyond all precedent, until there is scarce a mile of your road...Where it is safe to run a train. Broken wheels, axles, engines and trains off the track have been of daily, almost hourly, occurrence." Gould set to work to correct the problems. By 1869 the freight haulage of the Erie had risen to 817,829,190 ton-miles. Freight revenues were up to $12,583,793 and double tracking was well underway.

Gould clearly knew how to run a railroad, but h had his eye on a larger goal, a corner in the gold market. In the spring of 1869, with gold at $131 per ounce, Gould used the Erie's treasury and the Tenth National Bank's certified checks to buy $7,000,000 worth of the precious yellow metal. This represented about half of the available floating supply of gold in circulation.

Only one obstacle stood between Gould and his diabolical scheme - $100,000,000 worth of gold in the U.S. Treasury. Gould knew how to get things done in New York City and New York State. Influencing the Federal Government was another matter, but it was not beyond Gould's capacity. He cultivated the friendship of President Grant's brother-in-law, **Abel Corbin,** and with Corbin's connivance and $1,500,000, Gould bought off **General Dan Butterfield,** the Assistant Treasurer at New York. Gould used spurious "certified" checks to control close to forty million dollars worth of gold. Fisk was in on the scheme, up to a certain point.

When Gould became aware that Grant had given an order to begin selling U.S. gold, Gould appeared outwardly bullish while he secretly unloaded his position. Fisk never knew the end was near, and he was caught in a neat trap. Fisk's broker were buying the contracts that Gould's brokers were secretly selling! In the end, Fisk simply repudiated his verbal contracts to buy gold, and two of the Tweed Ring judges who were in Gould's back pocket enjoined anyone from trying to collect.

Gould retired to the safety of the Erie's offices, to gloat over $11,000,000 in profits, and, in the next few weeks, to sign more Erie share certificates like this one. **This is only the second known Erie Railway stock certificate signed by Jay Gould as president.** A wonderful example, issued during one of the most turbulent and exciting time periods in American financial history. A museum piece, worthy of the finest collection.

3424 **Accessory Transit of Nicaragua** 1855. #102. **$1000.** 7% Bond. Side wheel steamship. Signed by George Hoyt and Charles Morgan. **VF+.** ***($750-1,250)***

Accessory Transit was organized by **Cornelius "Commodore" Vanderbilt** to move passengers and freight through Nicaragua. He hired **C.K. Garrison** as his agent in San Francisco and **Charles Morgan** as his agent in New York. Morgan, who signed this certificate, was an American shipping and railroad magnate. He became the largest ship owner in the U.S., and held a virtual monopoly over transportation from New York to Texas. Morgan ran a line of sailing vessels to the West Indies and had a regular line of mail steamers between New Orleans and Galveston.

Shortly after this bond was issued, a "war of the three commodores" involving Charles Morgan, Cornelius Vanderbilt and George Law, occurred. Accessory Transit competed openly with the Law-Aspinwall Lines, which were subsidized by mail contracts, Morgan and Garrison, on the other hand, manipulated the Transit's stock in such a way that they profited while Vanderbilt lost heavily. Vanderbilt was said to have stormed at them, "I will not sue you because the laws takes too long. I will ruin you."

Vanderbilt did manage to unseat Morgan and Hoyt from the Board of Directors, but another headache immediately developed in the form of William Walker, who invaded Nicaragua with the support of Morgan and his associates! Vanderbilt sent his own mercenaries to Costa Rica, where they obtained a small force of native troops. Walker was defeated, and Vanderbilt was back in business in Nicaragua.

427 **Edison Stock Ticker.** ***($10,000-15,000)***

A rare authentic stock ticker manufactured by T.A. Edison, Inc. with serial No. 8557. Complete with its base and dome, both original. Refurbished and repainted, lacking spindle. The stock ticker is one of the amazing developments in the history of American capitalism. Credited by historians with revolutionizing stock trading in the U.S., the stock ticker is a telegraphic device developed 23 years after Morse's basic telegraph in 1844. A keyboard is used to activate an indicator wheel in the ticker which then prints numbers and letters on easy-to-read paper. Subscribers to the ticker were able to get trading information much more rapidly than other speculators relying on messengers ("pad shovers") who required up to 20 minutes to complete their runs.

The very first ticker was invented by E.A. Callahan, an employee of the New York Stock Exchange, and it was introduced to Wall Street in 1867. By the 1880's tickers were indispensable in New York banks and brokerage firms. The first versions of the ticker were subject to frequent interruptions. A more reliable and technically advanced version was invented by Thomas A. Edison. The Edison ticker, with its familiar glass dome, became the standard in 1883. Now is your opportunity to own this historical machine, which revolutionized the industry and attracted enormous money to Wall Street thus helping finance thousands of American enterprises. Please note that this ticker will not be brought to Memphis. It will be available for viewing in our New York office only.

These notes were authorized and some emitted during 1873 to finance the beautification of the District under Alexander "Boss" Shepherd. Shepherd, who as Lieutenant Governor of the Territory of Columbia was also head of the Board of Public Works, ran up to $68 million in debts, well above the $10 million limit. With the Territory headed for bankruptcy, and Henry Cooke and the First National Bank of Washington closed after the Crash of September 1873, the sale of any more of these notes ceased. They were already at a discount of 50% despite the 8% coupons. Ultimately, in order to end a massive strike by the unpaid public employees. Congress took over the government of the District with three commissioners in bankruptcy and paid off the DC debt.

In 1833, the Territory of Florida chartered the Union Bank with a capital of $1 million, later increased in 1838 to $3 million. To assist in raising the needed cash, the Territory issued $1000 bonds, Series A-D due 1858-1864. A total of 360 bonds all signed by Governor Duval in 1834, and another 640 bonds signed by Governor Eaton were sold in 1835. These bonds were then sold by the Phenix Bank of New York and the interest made payable there. In order to cash in on the high prices for American securities in Britain, the Phenix Bank rediscounted these bonds by selling them through Thomas Wilson &amp; Company, one of the "Three W" American securities firm in London. A special form was issued for bondholders in London, making the bonds payable at Wilson's. This arrangement appears to have been confined to the Duval bonds; the Eaton bonds were all payable in New York. In 1838 a second bond issue for $2 million was ordered. These were direct bonds of the Territory and came in series A-D due 1862-1868.Of the $2000 bonds 1280 were sold in New York, Amsterdam and London. All were repudiated because they were sold at less than par.

The Bank of Pensacola was chartered in 1831 and in 1835, in order to raise capital for it, the Territory agreed to lend its credit for that purpose. Accordingly, the bank printed, signed and numbered $500,000 worth of bonds possible in series A to E, numbered 1-100 each. On the back of each bond, Territorial Governor John Eaton (former Secretary of War and center of the Peggy Eaton Affair) signed the bank's bonds guaranteeing on behalf of Florida the principal and interest. The bank then placed these bonds in their own vault and issued a new bond payable to a consortium of Second Bank of the United States officers at Philadelphia both for principal and interest. The Bank of the United States, urgently needing funding, then sold these bonds together with one drawn up by their own Bank, payable in London at the offices of Gowan & Marx.

There is an ink notation of the back saying the order was placed January 15, 1879. About three issued items of this denomination are known; plus three proof/specimens, the proof being cut and in poor condition. This series of items have been styled "Baby Bonds" not only because of the toddler depicted at the left, but because of there small size.While the interest paid on them was at a market level, their dimensions, their issuance in low, currency style denominations and so forth made them bills of credit (currency) in effect, and the Federal Government moved in and compelled the abandonment of planned large scale issues. This accounts today for the masses of unused Louisiana "Baby Bonds" and the great scarcity of the Texas "Baby Bonds" with only two issued representatives and five proofs being known to us of that emission.

The kingdom was founded by Kamehamaha I in 1795, when he consolidated four territories into one. His family retained absolute control until 1872, when a struggle began which pitted the crown and the natives against the pineapple and sugar magnates. The Americans' ancestors had come to the islands as missionaries with the intention of doing good, but had stayed on to do well. Ultimately, the crown lost ground, and then was overthrown in a coup, engineered by the American Minister to Honolulu in early 1893. Incoming President Cleveland dismissed the minister and recalled the Marines, but the damage was done, as Washington refused to act on any of the appeals to restore the Queen. Unable to secure annexation by the United States, the coup proponents had to organize a republic as an interim device. This lasted until 1898, when Hawaii was annexed by the Republican government led by President McKinley.

This bond was part of a $2 million issue authorized by the Acts of September 1, 1886 and October 15, 1886. Note the text that the King, David Kalakaua had authorized this issue based on a cabinet decision made independently of the sugar interest which had professedly bought control of the legislature in the interests of democratic government. The King further annoyed his detractors by renewing royal patronage of hula-hula dances and luas (Hawaiian barbecues) which were indignantly (and falsely) represented to the gullible public in America as scenes of licentious and scandalous pagan debauchery. In fact, the King and his sister and successor Queen Liliuokalni (some of whose poetry became the state song) were models of Victorian propriety. Another great rarity.

This bond was part of seven loans maturing 1870-1876 issued for the suppression of the southern rebellion. The 1876 part of the loan amounted to $1,430,000. From the number of this bond, 2345, we can infer that all the "Union Loan Sinking fund" bonds were in the denomination of $1000 and that bonds due 1876 were number 1571-3000. The bond was signed by Governor Andrews, one of the most vigorous supporters of the Union. The bond has the words "The Property of the Commonwealth/Union Loan Sinking fund" in hollow red letters at the top. **A Very Rare Bond.**

During the War Between the States each state had to meet a draft quota. individuals could avoid the draft by paying a bounty to volunteers to go in their places. This policy discriminated against poorer draftees, and a bounty fund was created by the state to provide deserving applicants with the necessary $300 to avoid the draft.

The revised form ended with the issue of $4,379,500 of bonds for soldiers' bounties. The original loan appears to have been retired in full in 1880.

The earliest known railroad bond. In the late 1820's and early 1830's the success of the Erie Canal created an atmosphere conducive to promoting and building more canals, and railroads as well. While small railroads could be financed though the sale of shares to private investors, long railroads required the cooperation, and the financial backing of larger entities. The State of South Carolina was one of the first to realize the economic benefits that could be gained by aiding the construction of railroads, and the State loaned $100,000 to the fledgling South Carolina Canal &amp; Railroad Company (chartered in 1827) to build a 136-mile road from Charleston to Hamburg, which was completed in 1833. It was then the longest line in America. In 1835, hoping to further improve the transportation of cotton from the Deep South northward, a new railroad was chartered, the Louisville, Cincinnati &amp; Charleston. In 1838, to encourage the expansion of the road to the state capital, Columbia, the State of South Carolina agreed to guarantee the issue of 200,000 Pounds of 5% Sterling Railroad Bonds for every $500,000 worth of shares sold. The bonds, due in 1866, were to be sold in Europe through the Agency of the Bank of the United States These are the first known state guaranteed railroad bonds. Because of the steadily worsening condition of the Bank of the United States, a second group of bonds was issued through a different agency of the House of Mess. Palmer, Mackillop, Dent &amp; Co. of London. In his capacity as State Comptroller, William E. Hayne signed the back of each bond. His father, Robert Young Hayne, signed as president of the railroad. Robert Young Hayne (1791-1839) was U. S. Senator from South Carolina (1823-1832) and Governor of South Carolina (1832-1834). He was noted for his brilliant debate with Daniel Webster over the Nullification Doctrine in the Tariff Controversy of 1832. As time went on the financial climate did not favor the cooperation of other states in expanding South Carolina's railroads. In 1844 the LCC became part of the South Carolina Railroad, which assumed the debt of the earlier company. The Confederate War prevented the South Carolina Rail Road from making interest payments, and in January of 1866 the bonds came due. Neither the State nor the railroad could pay the principal. Instead, the bond holders were put off until 1871, and were asked to accept various oddly denominated Certificates of Indebtedness for any past due or future interest. In 1871 the South Carolina Rail Road issued 500,000 Pounds of new sterling bonds, and exchanged them for the issues described above The old bonds were cancelled and lay hidden for over a century until the recent discovery of a small group, said to have been brought in to the U.S. early in the last century from a European source

Issued under an act passed in the 1851-1852 session for the state capitol building, $658,000 due. This bond has the distinction of being signed by **Andrew Johnson** (1808-1875). Johnson was elected governor in 1853 until 1857, he then served as U.S. Senator from 1857-62. Although he was pro-slavery, he refused to accept secession. Lincoln appointed him military governor of Tennessee and then selected him as vice president for the 1864 election which undoubtedly helped Lincoln get reelected. After the assassination of Lincoln in 1865, Johnson became President. He attempted to pursue the conciliatory reconstruction policies Lincoln had envisioned but Johnson was increasingly thwarted by radical desires for revenge against the South. The conflict resulted in the 1868 congressional impeachment of Johnson. Johnson survived by one vote but he left office in embittered and in disgrace. However, five months before his death, he regained his Senate seat.

Financial Failure and Confederate Defeat
$20.00
By Douglas B. Ball, Ph.D.
1991. 320pp, hard cover.

"Prodigiously researched and forcefully argued, Ball's work is a badly needed modern study of Confederate finance. It clearly supersedes earlier works in making it's powerful case for the impact of financial failures on Confederate Military defeat" – William L. Barney, author of Battleground for the Union. Every serious collector of Confederate fiscal documents should own this book.

3544 State of Texas (TX) 1865. #13. Unlisted. **$1000.** 7% Registered Bond. Dated at Austin May 11, 1865. Statehouse. Star, bottom. **VF+.** ***($750-1,250)***

A comparatively recent discovery, this bond is one of only 7 known to exist and to judge by the date only about 20 or so were issued in the first place. All but one were issued in a $1000 denomination. It was apparently designed by Wilhelm Von Fosenberg, the design being taken by W. De Ryer Chemist of the Nitro and M Corps of the Trans-Mississippi Department.The bond is described as having been produced by the Homeagraph process, which presumably was chemical in origin, but the work looks like something made on wood block. At least it has the same crude appearance. Note that the bond holder could buy public lands at 50 cents the acre and that Texas could call these bonds in a year after peace between the Confederacy and the United States of America.

Governor James Throckmorton (1815-1894) was one of seven men who voted against succession, he non the less served in the Confederate army. He held a variety of offices and sat in the federal Congress after the war. His tour as governor lasted only a few months after his election in 1866, as he was ousted by General Sheridan as "an impediment to Reconstruction". This issue was created to mop up the unfunded and unpaid debts of the state.

Only one we know of. To judge by the number of this certificate, (562) the total amount of this loan and the number of outstanding certificates must be small indeed. Virginia is only responsible for 2/3rds of the debt per an act passed in 1871; West Virginia's portion of the debt was finally assumed by Federal Court order in 1909 and the statute of limitations expired in 1939.

During the Civil War, the Unionists in Western Virginia seceded from Virginia. After the war, Virginia tried to get West Virginia to assume its fair share of the Commonwealth's debt as of 1860. West Virginia refused to do so. Virginia therefore set West Virginia's share at 1/3rd of the total, and issued certificates fro the accrued interest and principal. Ultimately, Virginia sued West Virginia before the Supreme Court under its original jurisdiction powers and got judgment. When the legislature in Charleston refused to vote the money to pay this judgment, the federal district judge ordered the money to be voted, anyone opposing it to be sent to prison for contempt of court. These and other certificates were then taken up with West Virginia bonds and the statute of limitations on such debt expired in 1939, so that such certificates are no longer redeemable.This is one of only four certificates known to us.

This company was organized in 1835 and work commenced soon thereafter. The line extended northeast from Raleigh to the small rail hub of Weldon, North Carolina, on the Roanoke River. The road was completed in 1843, but operated under great financial difficulties. The State of North Carolina assumed control of the road in 1845. It was run entirely as a State institution until its reorganization under the Acts of Assembly in 1852. The first meeting of stockholders of the new company was held in January 1852. The road connected with the Seaboard Railroad at Gaston and the North Carolina Railroad at Raleigh. A new bridge was constructed at Gaston in 1858, but was later destroyed in 1865 be retreating Confederate forces. At the stock holders meeting of July 1861 an act increasing the capital stock of the railroad was approved, the increase to be used to purchase slaves for the railroad. The railroad eventually became incorporated into the Seaboard system in 1900.

Lawrence O'Bryan Branch (1820-1862) was an Army officer and Congressman. When the Seminole War broke out, he volunteered, serving throughout as aide-de-camp to General Reid. His participation in politics began in 1852 when he was chosen as a presidential elector on the Pierce ticket. In 1854 he was elected to the House of Representatives where he served until 1861. Wanting active service during the Civil War he joined as a colonel in the 33rd North Carolina regiment. On January 17, 1862 he was commissioned a brigadier general by President Davis and was placed in command of Confederate forces at New Bern. Operating against the forces of General Burnside he was forced to retreat. He was then ordered to join Stonewall Jackson. He took part in the battles of Hanover Court House, Seven Days battles around Richmond, Cedar Run, Second Manassas, Fairfax Court House, Ox Hill, Harper's Ferry and Antietam. At Antietam, while leading his brigade, he was shot in the head and killed on September 17, 1862.

The main institution for financing the Zionist Organization's activities in Israel was founded in London in 1920 and officially registered in Britain a year later. In 1926, the headquarters of Keren Hayesod were moved to Jerusalem. Keren Hayesod is headed by a board of trustees, appointed by the Zionist Executive and the Jewish Agency. In addition to financing the activities of the Jewish Agency, Keren Hayesod undertook to support educational projects and to provide financial assistance for development and settlement. Most revenues come from fundraising. In the past, funds were raised through the sale of bonds such as these.

Keren Hayesod collects donations in almost all countries with a Jewish community, either directly or through volunteers. Until the establishment of the state, Keren Hayesod financed activities of the yishuv relating to immigration and absorption, settlement, defense, development of water resources and public works. It aided major economic enterprises such as the Palestine Electric Company and the Palestine Potash Company at the Dead Sea. When the country gained its independence, many functions that had been handled by Keren Hayesod were transferred to the Jewish Agency. Keren Hayesod then concentrated on the financing of immigration, absorption and settlement.

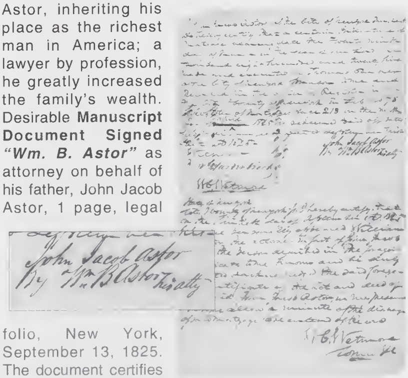
WILLIAM SIGNS FOR HIS FATHER

3596 ASTOR, WILLIAM B. ($450-550)



John Jacob Astor
By Wm B Astor his atty

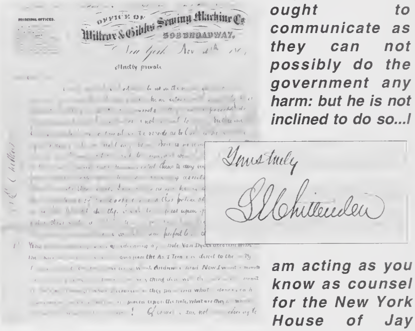
Son of fur and real estate magnate John Jacob Astor, inheriting his place as the richest man in America; a lawyer by profession, he greatly increased the family's wealth. Desirable **Manuscript Document Signed** ***"Wm. B. Astor"*** as attorney on behalf of his father, John Jacob Astor, 1 page, legal folio, New York, September 13, 1825. The document certifies that a ***"Mortgage...executed by Thomas Parker...mason...is redeemed, paid off, satisfied, and discharged..."*** Countersigned by witness Jno. Hardenbrook and public official W.C. Wetmore. Fold separations repaired with extraneous paper, some show-through, small holes, and edge wear, otherwise in very good condition. The elder Astor was at this time still expanding his fur monopoly, and in two years would absorb his last major competitor. Although William was an active part of that business, we see here an early example of his involvement in real estate, at which he would excel after the Astor fur interests were sold off in 1834. The extent of his holdings would earn him the sobriquet "the landlord of New York"

3597 BANK OF NORTH AMERICA ($300-600)

Choice partly printed **Manuscript Document Signed** *"Assheton Humphreys,"* notary, 1 page, legal folio, Philadelphia, August 5, 1796. An official protest of a promissory note of James Greenleaf, a partner of the North American Land Company. Humphreys affirms that he, ***"at the Request of the President, Directors, & Company of the Bank of North America, Exhibited the original note...unto Mr. Stacey agent for James Greenleaf...and demanded payment"*** of the $2681.14 debt. Greenleaf is absent, prompting the notary to enter the protest for the amount plus interest and costs. He has copied the note at the top of the present document. Embossed with notary seal. Slight fold separation at top, otherwise in very good condition. The Bank of North America was the nation's oldest bank, formed initially to finance the Revolution.

INVESTIGATING COUNTERFEIT 7.30 BONDS FOR COOKE & CO.

3598 CHITTENDEN, LUCIUS E. ($400-600)



Office of Willcox & Gibbs Sewing Machine Co.
508 Broadway,
Strictly private
Yours truly
L.E. Chittenden

American lawyer, government official, and author; the first Register of the Treasury to sign U.S. notes, serving during the Civil War; he later wrote popular reminiscences of the war and the Lincoln administration. Important **Autograph Letter Signed** ***"L.E. Chittenden,"*** 1-3/4 pages, 4to, engraved "Willcox & Gibbs Sewing Machine Co.," New York, November 20, 1867. Marking the letter ***"Strictly Private,"*** Chittenden writes William S. Huntington of the First National Bank in Washington that ***"It is of essential importance to us in the investigation of the spurious 7.30 subject that we should know certain facts MINUTELY. These facts the Secretary*** [of the Treasury Hugh McCulloch] ***ought to communicate as they can not possibly do the government any harm: but he is not inclined to do so...I am acting as you know as counsel for the New York House of Jay Cooke & Co. and this portion of the investigation is for their benefit directly...These facts...would make our defense complete and perfect..."*** Chittenden writes out his questions in block letters: ***"1st - What is the complete process of redeeming a 7.30 note. Van Dycks account...are sent to the loan Division of which Andrews is head. Now, I want a minute description of every step taken...What is the shape of the mark or punch used in cancelling?...It is said that three duplicates of 30 notes were discovered in the Treasury...These were probably the first emission of the counterfeits...Is there any truth in this report?..."*** After assuring Huntington that ***"I have no confidants in this matter and I do not even communicate facts to my own clients unless I can see a clear necessity for doing so"*** he asks him to keep him advised of new developments. In very good condition. The phony 7.30 bonds had been passed on to Cooke's bank by William E. Brockway's New York counterfeiting ring. Cooke offered a large reward for their printing plates, but when Secret Service chief William P. Wood confiscated them, the banker reneged. Wood sued, only to be fired by Secretary McCulloch for his greed.

CYRUS FIELD ADVISES COOKE ON TELEGRAPH SECRECY

3599 COOKE, JAY *($900-1,100)*

American banker and patriot; sold more than $600 million in bonds to help the government pay for the Civil War; ruined by the 1873 crash, he succeeded in rebuilding his fortune within a decade. Intriguing **Autograph Letter Signed** ***"Jay Cooke,"*** 1-1/2 pages, 8vo, engraved "Jay Cooke & Co. / Bankers / Government Loan Agency," Philadelphia, November 7, 1868. He writes to William S. Huntington of the First National Bank in Washington about a lost telegram, insisting the matter ***"must be ferreted out - Hereafter send an important Despatch by two lines - and what's better (& a suggestion of Cyrus W. Field who*** [is] ***dining with me today) - cut your despatch in two unintelligible parts & send half by each line...The order to Van Dyke will do much good...I trust the Secty.*** [of the Treasury] ***will still further act by allowing deposits to be*** [undrawn?] ***from good Nat***[ional] ***B***[ank of the] ***U.S. for a while & pay out more greenbacks if needed. Keep snug & get daily in better shape. I am shocked to see how*** [?] ***is running up again - Don't let a dollar be expended for outside matters such as Gas, Quarry, etc. How about his 25,000 note & yours at Central B. U.S. How about the*** [?] ***from California to refund the Gold ofc.? Tell me all about them..."*** Some wear along a vertical fold, scant original blotting, including last name of signature, otherwise in very good condition. Cooke's heavily abbreviated scrawl is especially tantalizing in a letter where he discusses his own famous secrecy. That his suggestion comes from the mouth of the man who two years earlier had finally succeeded in laying the first lasting transatlantic telegraph cable only adds to the piece's interest. Less than a week earlier, U.S. Grant had been elected President, raising Cooke's hopes that he would be named Secretary of the Treasury, but the job went instead to his colleague George S. Boutwell.

Choice **Manuscript Letter Signed** ***"Jay Cooke,"*** 1 page, 4to, imprinted "Jay Cooke & Co., Bankers," Philadelphia, March 26, 1868. He writes First National Bank officer W.S. Huntington in Washington, advising ***"An advertisement of theis sort would be the best - 'Splendid Investment / Over 9 per cent Interest / We offer for sale - $100,000 North Missouri RR First Mortgage Bonds / At the rate at which we offer them they will pay over 9 p.c.*** [sic] ***interest to the purchaser and we consider them as safe as any security on the market. They will be sold at this low rate for a limited period only / Gov't bonds rec'd in exchange at the highest market rate'..."*** With **Autograph Note** in Cooke's hand written sideways over a quarter of the text, working out the yearly gain on an investment. In very good condition. Cooke's advertising advice was invaluable: not only had he sold over half a billion dollars in U.S. bonds during the Civil War, but would also soon be responsible for bringing recognition to Yellowstone as a national treasure - in order to promote his Northern Pacific Railroad, which ran through it.

A CREDITOR TRIES TO COLLECT FROM THE ENGRAVERS

3604 KEATINGE and BALL ARCHIVE [25] *($700-1000)*

A remarkable series of letters surrounding the attempts of a Mr. W. Millen to collect a debt of over $10,000 Confederate from the erstwhile engravers of C.S.A. notes and stamps. The group begins with a legal clerk's **Manuscript Copies** of letters from J.A. Ball [2] to Capt. James L. Beard, Millen's agent, 1-1/5 and 1/2 pages, Richmond, Virginia, September 4 and 10, 1865. He writes in the first that ***"In regard to the money left in my hands belonging to Mr. Millen, I am sorry to say it went up*** [in flames] ***with our Money after Leaving Columbia*** [South Carolina, when it was burned by General Sherman in his "march to the sea"]. ***I never had an opportunity to make a safe investment...All the work we did for the Treasury...and all we did for P***[ost] ***O***[ffice] ***was lost to us...No mortal could foresee what happened..."*** Regarding Richmond, he adds ***"A good many parties will begin business here this fall, the Burnt District is being rapidly rebuilt..."*** On the 10th, he writes, ***As we are closing up our Books I herewith hand you $10,560...due Mr. W. Millen..."*** In the same clerk's **Manuscript Copy** of a letter from Edward Keatinge, 1-1/5 pages, 4to, Richmond, May 15, 1866, he writes to a still-unsatisfied Beard that ***"Your claim on the part of Mr. Millen rather surprises me, as you are so well aware of the fact, that I never had any transaction with you on that Gent'm's part. The Business of Keating*** [sic] ***& Ball was that of Engravers & Printers & not that of merchants, and any Hide transaction...made no part of my business. Private trading by Mr. B- was as you know disagreeable to me..."*** Letters are toned, the two longer ones stapled, with some partial fold separation, otherwise in very good condition. The rest of the archive largely concerns the attempts by attorneys Rutledge & Young to collect Millen's outstanding account with Keatinge and Ball. Richmond attorney James A. Jones informs the firm in October 1868 that ***"Neither Mr. Keating nor Mr. Ball lives now in Richmond. The former is said to have gone to N.Y. and to be solvent...The latter I have not discovered...he is said to be insolvent..."*** A month later he amends his opinion on Ball, for ***"There is property held by him, worth it is said thousands of dollars..."*** although some claim it belongs to his wife. Millen, growing frustrated, writes the lawyers from Alabama that December, advising them to ***"Open a correspondence with*** [Beard] ***& I will give you half what you may recover..."*** Beard explains to them that ***"In 1864 as Mr. Millen's Agt. I sold dry Hides to Messrs. Keating & Ball the money...was left in*** [their] ***hands with the understanding that they would invest it in foreign Exchange. Mr. Ball left here*** [Columbia] ***about the 12th of February 1865 and failed to Settle...I rec'd a letter from Mr. Ball (for Mr. Keating had left here with the yanke army)..."*** and recounts in part the contents of the copied letters, acknowledging the $10,560, but says he told Ball ***"I could not receipt for Such money and that they must Settle to the Satisfaction of Mr. Millen...***[but] ***it is evident they had collected this money after the Confederacy went up...Keating & Ball owes Mr. Millen the wirth*** [sic] ***of the Hides in current money..."*** In other words, Ball had settled using Confederate notes after the collapse of the Confederacy! Early in 1869 he replies to Rutledge & Young's request for the original letters, but expresses worry about leaving the originals with them. This explains the presence of copies of the Keatinge & Ball letters, which appear to be in the hand of the law firm's clerk, who also dockets every other appropriate letter ***"Millen v. Keating & Ball".*** J.A. Jones declines further involvement, referring Rutledge & Young to a young colleague, John Morson, but explains that any suit must be tried in a U.S., rather than local, court, due to the breakdown of state courts after the Federal victory in the war. Beard's lawyer F.W. McMaster informs them in May that during the war ***"K & B. bought the City hotel which has since been sold for taxes...so their interest there is of no value...Beard thinks you can compromise with*** [Ball] ***as he is rich - Keatinge has a little house here claimed by his wife...worth say $1.000-..."*** However, the last word comes from Morson, who reports in May 1869 that ***"Your informant Mr. Beard is mistaken in thinking that Ball wealthy. So far from it, he...was unable to redeem certain necessary horses of his which were attached and sold by some creditor.."*** and has no news of Keatinge. That July, on the verso of a letter from Millen on an unrelated case is the law firm's pencil note ***"Answer...Claim v. Keating & Ball is absolutely worthless..."*** bringing the matter to an end. Beard's 1868 letter is separated at a fold, some others have partial separations and tears, otherwise all are in good to very good condition, mostly the latter. The remaining ten letters concern Millen's attempts to collect another debt. This archive provides an unmatched view of the murky postwar activities of these celebrated engravers.

Incomparable partly-printed **Document Signed *"Robt. Morris"*** as president of the Asylum Company, 3-1/2 pages, folio Philadelphia, October 9, 1794. Witnessed by company secretary ***"James Duncan"*** and signed in type by Morris [twice], Duncan, and ***"John Nicholson"***. Shar #161 of the Asylum Company, ***"being the equivalent of two hundred acres of land, in proportion to the entire quantity of acres purchased by the said company..."*** The document includes the full printed articles of agreement establishing the company. Attractively age-toned, with some separation at fold, otherwise in very good condition; as a share of its time, extremely fine. The company was organized to purchase land, to a maximum of 1,000,000 acres, in Pennsylvania's Luzerne, Northumberland, and Northampton counties. with the intention of renting them to settlers, in particular, aristocratic refugees of the French Revolution trying to escape the guillotine - hence the name "Asylum". A town of that name was established, and some Frenchmen did in fact settle there. However, Robespierre's overthrow and the installation of the Directory, which pardoned many exiles, freed the emigres to return to France. The town shrank steadily and had disappeared by 1806, although Asylum Township remains, in what is now Bradford County The Asylum Company, suffering from sluggish sales could not keep up its tax payments and was bankrupt by 1798. After legal wrangling, William Cramond, a creditor of Morris and Nicholson, took over as the company's sole propietor. This exceptional item offers interest as a stock, a beautifully preserved document, a valuable autograph, and an intriguing piece of history.

Fine partly-printed **Document Signed *"Leland Stanford"*** as president of the Central Pacific Railroad, 2-1/3 pages, legal folio, San Francisco, March 1, 1881. Also signed by secretary ***"E.H. Miller, Jr."*** and trustees ***"Jas. O'B. Gunn"*** and ***"S.W. Sanderson"***. Deed #1953, selling ***"for the sum of Twenty two hundred and forty...Dollars...to...A. Montgomery...land...lying and bing in the County of Tehama and State of California...Six hundred and forty...acres..."*** With gold company seal, red trustees' seals, and notarization. Very lightly toned, with some soiling on verso, otherwise in very good condition indeed.

Vanderbilt confirms the receipt of payments from March 31, 1864 to May 1, 1866. Subsequent payments are attested on his behalf. Also signed by Van Cleef and witness N.B. La Bau. Light fold wear and soiling, otherwise in very good condition. During the life of this bond, Vanderbilt was engaged in struggles with fellow rail magnate Daniel Drew over the New York & Harlem, Hudson River, And New York Central railroads, from which he emerged victorious, consolidating the latter two in 1869.

He writes Henry Dennis in Washington, sending a check [not present] and reporting ***"I go to Washington tomorrow and will be at the Shoreham for a few days..."*** Age-toned, with soiling and wear at edges, otherwise in very good condition.

Kelly lists twelve Large notes and eight Small notes known for this bank; we've traced eleven and eight respectively, and this is **the undisputed finest note we've ever seen for this bank, Large or Small.** In addition, we've traced only seven $20 Brown Backs for the entire state of Delaware, and this is **easily the finest Delaware $20 Brown Back we've recorded.** Considering that this note is pedigreed to the two finest Delaware collections ever sold, **it is highly unlikely that you will find a nicer Large note on the bank, or a nicer $20 Brown Back on Delaware!** A showpiece for the finest of collections. ***($6,000-10,000)***

United States Paper Money Records **$125.00**
By Martin Gengerke
2001. 237pp, spiral bound. Mint.

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In United States Paper Money Records Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are close to 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work, also available on CD-ROM, is autographed by the author.

United States Paper Money Records **$125.00**
By Martin Gengerke
2001. 237pp, spiral bound. Mint.

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In United States Paper Money Records Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are close to 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work, also available on CD-ROM, is autographed by the author.

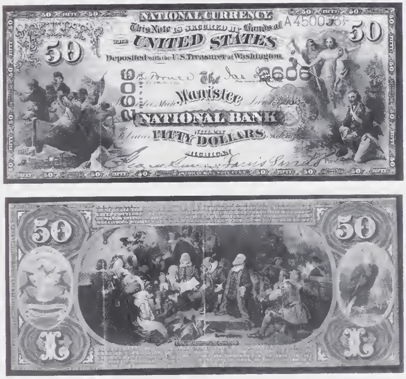
Unique First Charter Michigan $50



4067 **Ch.2606.** Manistee. **Manistee NB. $50.** 1875. **Fr.447.** No.A450033/1052. A. **Fine,** but unfortunately trimmed to the design all around. This unique bank was chartered in December 1881, and issued 1,347 1875 $50s and 1,347 1875 $100s before being liquidated a few weeks before its charter expired in 1901. Kelly lists **just one note known for the bank** and Gengerke records **just one public offering in history (this note).** Of equal importance is its rarity as a type. **This is the only First Charter $50 known for the entire state of Michigan.** For the record, Kelly does erroneously list one other - a Ch.1916 (Plymouth) note, which does not exist. **A great opportunity for the Michigan collector.** ***($35,000-45,000)***

The Kelly listing of a Ch.1916 Plymouth note with Treasury Serial Number A12746 is almost certainly a mislisting of an 1875 Colorado $50 with the same Treasury Number, and Charter Number 1016 (just one digit off). The Colorado note can be easily verified as it is illustrated in Hessler. Coupled with the fact that the Plymouth, MI bank issued no notes of any type higher than a $5, we can safely delete the erroneous Kelly listing.

United States Paper Money Records **$125.00**
By Martin Gengerke
2001. 237pp, spiral bound. Mint.

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In United States Paper Money Records Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are close to 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work, also available on CD-ROM, is autographed by the author.

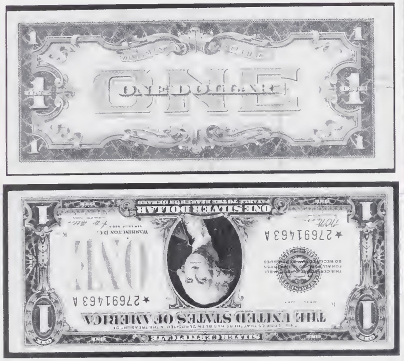
U.S. Error Notes

Finest Known
Funny Back Star Invert



4355 **$1. SC. 1928A.** No.★27691463A. Inverted face. In the entire Silver Certificate series there are only six Star Notes known with inverted faces, and **only three of them are "Funny Backs." This is the finest of the three known,** just edging out one that brought $2,860 three years ago. An attractive note that looks a grade higher on the face. **VF.** ***($3,000-5,000)***

A Nice Selection of
Early FRN Inverted Faces

4356 **$5. FRN. 1934A DGS.** No.B51986395A. Inverted face. This error occurred when the sheet (with the back printed first, as is the normal sequence) was incorrectly fed into the press that printed the face **F-VF.** ***($300-500)***

4397 **A Scarce Fold Over Error. $10. FRN. 1934C.** No.A88708410B. A very dramatic error! The green Treasury seal is split virtually in half, while all of the other printing appears to be normal. Inexplicable Overprint Error

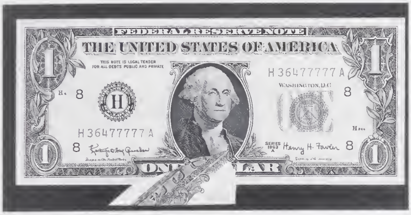
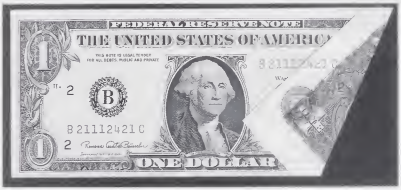
You Won't Believe Your Own Eyes When You See This Error!



4414 **$1. FRN. 1963A.** No.H36477777A. One of the most unusual fold over errors we have ever seen. Before the first printing the sheet folded on to the back, and ripped. It stayed that way through the remaining printings and through the cutting process. Unfolded, it appears as if a segment of the back is pasted on the lower central portion. The back looks as if a white butterfly has landed near the bottom of the note. We've never seen anything like it! **Choice Uncirculated.** ***($500-750)***



4415 **$1. FRN. 1969D.** No.B21112421C. A large fold over error caused portions of the serial number and the Treasury seal to be printed on the back. **Gem Uncirculated.** ***($250-350)***

4416 **$1. FRN. 1977A.** No.G99101630G. The lower left corner was folded up before the third printing causing parts of the district seal and the left serial number to be printed on the back. **Gem Uncirculated.** ***($200-300)***

4417 **Fold Over Errors.** 1) **$1. FRN. 1969D.** No.E26877899B. This note was folded before the third printing and the Treasury seal and part of a serial number are on the back. **VF.** 2) **$10. FRN. 1974.** No.E40964335B. This note was folded over and twisted during the overprinting process. The left serial number and part of the district seal are on the back, printed on an angle. The first part of the right serial number appears about a half inch above the second part. **EF.** [2] ***($250-350)***

4418 **$1. FRN. 1974.** No.F84477748F. Fold over error. The lower right corner folded up before the overprinting process. The Treasury seal and most of the right serial number appear on the back. **EF-AU.** ***($175-250)***

4419 **$1. FRN. 1974.** No.F05113496D. Fold over error. The face and back were printed normally. The note became folded before the third printing and stayed that way through the entire process. 4422 **$5. 1988A.** No.L16815909H. **Dramatic Multiple Fold Error.** Before the first printing the note folded over along the right side and stayed that way through the second printing. Unfolded, it exhibits a portion of the back attached to the right side, then a butterfly-shaped void, then a sliver of the front again! The left side of the back looks as if a white paper airplane with a portion of the back attached has landed on it. **Choice Uncirculated.** ***($300-500)***

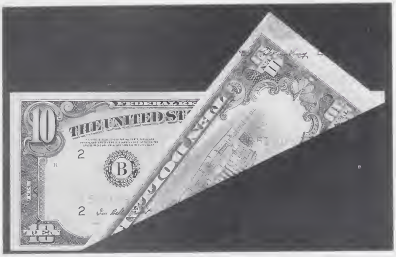
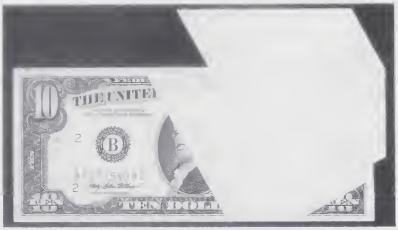
4423 **$5. FRN. 1974.** No.E86391748C. Multiple fold over butterfly error. The lower right corner was folded up before the third printing. Most of the Treasury Seal appears on the back along with a black district number. **Uncirculated.** ***($250-350)***

4424 **$5. FRN. 1988A.** No.L80922887G A multiple fold error created a 1" long butterfly in the upper right corner. **Choice AU.** ***($100-150)***



4425 **$10. FRN. 1950A.** No.B51109937D. A very dramatic and unusual fold over error. The front and back were printed normally. Before the third printing the note became folded. The sheet somehow straightened out before cutting, and was cut normally. Unfolded, there are portions of the left serial number and the district seal on the face along with two red and white-striped inspector's stamps, but the Treasury seal and right serial numbers are absent. The back of the note bears the right serial number, and the Treasury seal, series date, and Secretary of the Treasury's signature which should have been printed on the note above! **Choice Uncirculated.** ***($500-750)***



4426 **Monster Butterfly. $5. FRN. 1993.** No.B61725409C. About as big a fold over error as you can get. This one looks more like a stealth bomber than a butterfly! **Choice AU.** ***($250-350)***

4429 **Superb Fold Over Error. $20. FRN. 1969C.** No.D02351920B. The front and back were printed normally, but the sheet became folded before the third printing. When the note is unfolded, portions of the seals, one serial number, and two district numbers on the back, along with the plate number in the selvedge show on the back. In addition, about a quarter of the adjoining note is attached at the top. How this note passed inspection is beyond explanation. Why it is desirable is clear to anyone who appreciates major errors. **Gem Uncirculated.** ***($500-750)***

4430 **$20. FRN. 1974.** No.E8832236445C. Fold over error. The first two printings were normal, but the sheet became folded before the overprints were done. 4432 **$100. FRN. 1985.** No.H02628584A. An extraordinary multiple fold over error on a very tough denomination. The sheet became folded after the normal printing process, and before the cutting process. What was produced is the equivalent of a one hundred and fifty dollar bill! The bottom half of a second $100 bill is attached. There is a trace of a rubber bank stamp on the back. Superb Double Impression Error

4437 **$1. 1981.** No.H78125155. Double impression error. A superb specimen with crystal-clear doubling. One face impression is about an eighth of an inch above the other. An Error of the Highest Rarity

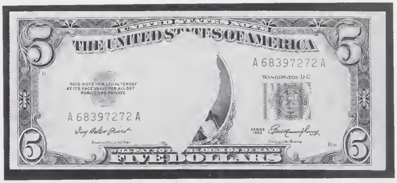
4438 **$1. FRN. 1985**. No.I76569998I. The paper used in currency comes in rolls. Occasionally, the paper maker has to splice together several lengths of paper in order to make a full roll. These splices are usually identified with a dye marker that can be detected by the cutting machine. **This note was printed directly over a paper splice.** On very rare occasions a splice goes unnoticed and becomes part of a sheet of notes. Here, the end of one length of paper was overlapped and glued on to the end of another so that a full roll could be made. The resulting splice became a part of a sheet. When the sheet was cut from the roll and fed into the press, the upper part of the face of the note was printed on the last strip of one length of paper, while the back, and the bottom portion of the face of the note is printed on the beginning of another length of paper. **Uncirculated. Excessively rare, and the bidding should be intense.** ***($2,000-3,000)***

There is a light bend in the center, but no folds.

Please note that a 15% buyer's premium will be added to each lot purchased.



4439 **$5. LT. 1953.** No.A68397272A. Obstruction error. An intervening piece of paper received the impression of the portrait. The piece adhered to the note until just before the overprinting process, when it fell off, leaving a void where Lincoln's portrait was. A very unusual and desirable error. One of the nicest obstruction errors we have ever seen. **VF-EF.**

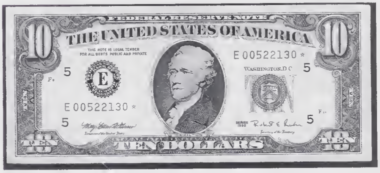
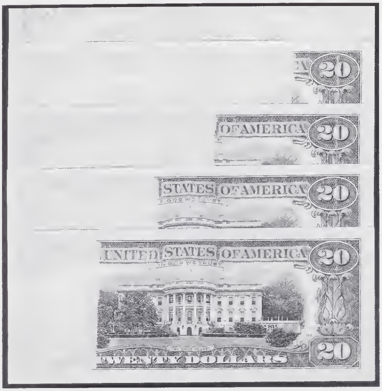
4441 **Missing Portion of the Backs of Three Consecutive Notes.** $1. 1999. FRN. Nos.C82657410A-412A. The left one third of each note is practically blank due to inking problems. **Almost Uncirculated.** ***($300-450)***

Extremely Rare $10 FRN Blank Back STAR Note



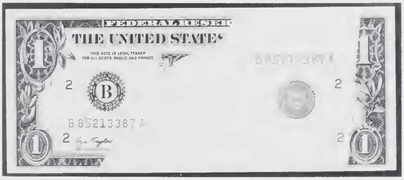
4442 **$10. FRN. 1995. STAR** No.E00522130★. This note would be highly desirable for the blank back alone. The fact that it is a star note, used for the purpose of replacing a defective note, makes it extraordinarily rare, especially in this denomination. Errors of this magnitude are difficult to place accurate values on, and we would not be surprised if our estimate was easily eclipsed. **EF-AU.** ***($1,500-2,500)***

4443 **$20. FRN. 1985.** No.B21460250G. The left two-thirds of the back are very faint, due to problems with the inking mechanism. **Gem Uncirculated.** ***($175-250)***



4444 **Unusual Progression Series of $20 Error Notes.** FRN. 1993. Nos. B57460771B - 777B. All are normal on the fronts. The first three notes printed (the ones with the highest serial numbers) are blank, except for a ghostly light impression of the back. On the fourth note printed, the vertical right quarter back panel appears. On the fifth note a about a third of the back appears, and on the sixth note printed about half of the back is present. The last note printed shows over three quarters of a normal back. This error is caused by a defect in the inking mechanism. [7] ***($1,500-2,500)***

4445 **$20. 1950A. STAR** No.D01468589★. Fold over error on a star note. The sheet folded over before the first printing, then straightened out before the second. About two thirds of the back printing is missing. **Uncirculated.** ***($300-500)***



4446 **$1. FRN.** No.B85213387A. The face appears to have been printed through a piece of torn note paper. The portrait and most of the right side are missing. Quite dramatic, and rarely seen. **Uncirculated.** ***($500-750)***

4447 **Obstructed Overprints.** 1) **$5. 1934 DGS.** No.D09221805A. A small obstruction has caused a void through the right serial number. **Choice Uncirculated.** 2) **$5. 1934D.** No.G05191224C. There is a void about three-quarters of an inch square in the lower left corner of the back, probably caused by a fold over that straightened out and was cut away. A tiny portion of the back corner appears in the lower right margin on the face. There is additional light black ink nearby in the margin. **Choice Uncirculated.** [2] ***($200-300)***

4448 **Consecutively Numbered Obstructed Overprints.$5.** FRN. 1934A. Nos. G10122176B-77B. An object has adhered to the overprinting mechanism, causing a void in three of the characters in the upper right serial numbers on both notes. Both **Gem Crisp Uncirculated.** [2] ***($200-300)***

4621 **$100. FRBN. 1929.** No.I00126023A. The Minneapolis district is nearly as scarce as the Richmond in this grade. Under extreme time pressure it is unlikely that the B.E.P would concern themselves with quality control when this issue was badly needed by a staggering Depression economy. **Choice Uncirculated.** ***($350-450)***

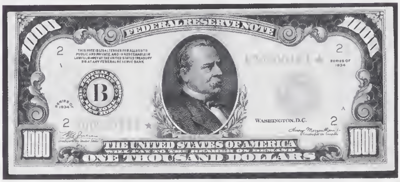
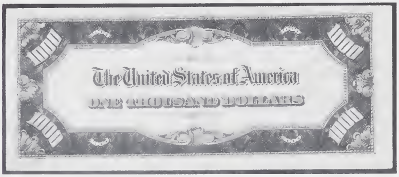
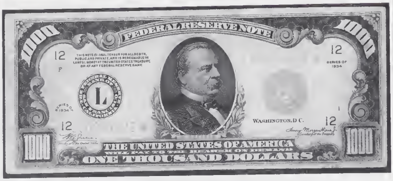
Unique New York Discovery
$1000 FRN STAR





4733 **$1000. FRN. 1934. STAR** No.B00000181★. The last note needed to complete a district set of $1000 1934 Stars, this one-of-a kind New York Star is an anomaly in a district that is a prolific issuer of these larger denomination notes. Marc Michaelsen, a leading expert in higher denomination rarities, discussed the lack of this note in a recent publication. When a previously unreported Richmond Star came on the market by way of an Internet auction, bidding quickly reached $25,000 in a few days. A deal for a higher, unreported, amount was later struck by private treaty well above this level. This leaves only a New York Star as the lone hurdle to completion of a stellar high denomination set.

This discovery B★ has pristine, original paper surfaces with embossing still intact. The paper still has the original gloss that many collectors fail to discern as a key to attributing a note which has not been tampered with. There are only a few smudges from light circulation, a medium to light centerfold, and a horizontal fold that is more of a bend and does not continue from end to end. Regardless of the grade, this note is the only one ever to come on the market. With the $1000 FRN market at a fever pitch and collector demand approaching levels not seen in decades, this incredible rarity's realization is anyone's guess. **Choice EF-AU.** ***($30,000-50,000)***



4734 **$1000. FRN. 1934. STAR** No.L00003672★. A nice companion to the unique Star above, this Mule Star is unattributed in Oakes and Schwartz with no listings. The serial number is a new high observed, which could explain its lack of appearance and its possibly unique status. As the collecting of high denomination Stars matures, collectors will come to appreciate these scarcer varieties. The paper is original but with pinholes throughout that do not detract from the overall pleasing appearance of this $1000 Star rarity. More common district Stars are bringing multiples of current guide prices, and we would not be surprised to see this unlisted variety achieve even stronger results in this frenetic market for high denomination small size issues **EF**. *($5,000-10,000)*

Small Size Definitions and Terminology

BEP = Bureau of Engraving and Printing.

Bp = Black plate or Back check. The small number engraved into the lower right field used by the BEP as a control or reference number for tracking plate use and inventory.

Block = The prefix and suffix letter or star combination at the beginning and end of a serial number.

COP = Changeover Pair. Also called cross-over pairs, which are consecutive notes of two different series, typically the earlier series comes before the latter. When the latter series precedes the earlier series it is referred to as Reverse Changeover Pair.

Experimental = Notes which were produced on special paper for the purposes of testing wear and durability in circulation and designated by special blocks and in one case with a red letter surcharge on the face of the note.

Fp = Face plate or Face check. The small number engraved into the lower right face field used by the BEP as a control or reference number.

Funnyback = A slang collector term used to describe the 1928 through 1934 series of one dollar Silver Certificates. Coined because of the "Monopoly" or play money look to the reverse design.

HOW TO GET THE BEST RESULTS WHEN BIDDING IN A MAIL BID SALE

Bidding in mail bid auctions can sometimes be a real challenge, but mail bid auctions are great opportunities for collectors to acquire items that may be hard to obtain any other way. Experience has taught us ways to minimize frustrations and maximize results, and we would like to share some of those ideas with you. Here are the questions we are asked most often and some of the suggestions we have made to bidders. We think they will save you time, money and help you win lots you might otherwise miss.

■ *"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."*

Lots are available to be viewed at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics or scripophily than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't be there, here is how we can help you get a better idea of what you are bidding on:

1) **Call us, and we will be happy to have one of our experts describe any lot you ask about.**
2) **We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge.**
3) **If you have established credit with us we may be able to ship lots to you for direct viewing.**

Please realize that requests for phone assistance, for copies or for shipping lots directly to you **must be arranged well in advance of the closing date of the sale.**

■ *"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."*

There is an easy way to solve this problem. It is called **a "limit" bid sheet.** Let's look at an example. Mr. Smith collects Confederate notes and he sees that there are over thirty lots he would like to buy. His budget is $1,000, but the estimates on the thirty lots he likes add up to well over $5,000. If he bids on all thirty he might win them all and exceed his budget. To be safe he bids on only ten, and he wins only one lot for a $100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. **He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet.** Here is how it works

Mr. Jones has the same collecting interests as Mr. Smith. He has the same $1,000 budget. Mr. Jones bids on **all thirty lots** he is interested in. He writes at the bottom of his bid sheet **"Please limit my total bids to $1,000."** Every time Mr. Jones wins a lot we keep track of his total spending. When the total reaches $1,000, we stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

There is a special advantage to limit bidding in a mail bid sale - the bids can be listed in order of your preference. List the lots you want most first.

■ *"I see that there are two similar lots in the sale. I want only one of them, not both of them."*

This problem can be solved with an **"OR"** bid. Let's assume that Lot #101 and Lot #102 are identical. You wish to bid $200 on either one, but you don't want both. Write the following on your bid sheet and you can accomplish your goal:

"#101 OR #102 at $200"

If you win Lot #101 we will cancel your bid on #102.

"What if there are three similar lots and I only want one?"

"#101 OR #102 OR #103 at $200" will work perfectly.

■ *"When I don't win a lot I often seem to loose it by just a few dollars. It almost looks as if someone knows what I am bidding and they bid a little more. What is going on?"*

Every auction house has its own way of closing a mail bid sale. Some houses will tell bidders exactly how much the highest bid is at any given moment right up until the end of the sale. We feel this is unfair, because anyone who is able to get through by phone near the end of the sale can top anyone else. If auctions are closed in this manner clients who are "friends of the house" have a distinct advantage and can top other bidders at the end. Those who bid early are at a disadvantage. To eliminate this problem **we don't give out information on what the highest bid is.** We advise bidders to bid exactly as much as they are willing to spend on a lot, and where possible, if they win a lot we reduce their bids to an increment just above the next highest bidder (there are exceptions – please see the Terms of Sale).

We think this method is fair to everyone involved, but it does result in bidders sometimes losing lots by $1, or $5 at times. If Mr. Jones bids $100 on an item and Mr. Smith bids $101, we have no choice but to award the lot to Mr. Smith for $101.

■ *"I bid $30 on a lot that was estimated at $100 and I didn't get the lot. Later, when I got the Prices Realized the lot was reported as unsold. Why didn't I get the lot?"*

The Terms of Sale state that bids less than 50% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "regular market value" of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.
